 # Denotes a Transfer Company pursuant to the 2021 Amendment, where the Fund distributed carried interest on May 27, 2021

Focus Companies

The following are the remaining focus companies that occupy the majority of our time. They will likely generate the most meaningful additional returns for the Partnership.

Financial data below reflects current holdings

Attentive Mobile# Partnered: 2020 Ownership: 1.6% Cost: $21M FMV: $30M

Attentive Mobile is the best way for brands to communicate with their customers. Compared to its competition, Attentive is ahead on AI and behind on building out the suite. CEO Amit is executing well against a tough backdrop of industry consolidation and tariff uncertainty.

Carbon Partnered: 2014 Ownership: 0.6% Cost: $4M FMV: $2M

Carbon is advancing the 3-D printing industry and is getting closer to its goal of upending the traditional process of manufacturing. Several long-term initiatives are starting to gain traction, and the businesses outside of thermoforming are growing.

Houzz# Partnered: 2014 Ownership: 1.1% Cost: $33M FMV: $7M

Houzz is the leading home remodeling and design platform, connecting homeowners and home professionals with the best tools, resources and vendors. Its marketplace business will soon be operated by Cart.com, letting Houzz focus on its SaaS business. The Houzz Pro software is AI-powered, all-in-one software for construction and design firms and includes everything from 3-D design to estimating and invoicing, budgeting, construction project management and home improvement-specific client workflow management. The software business is growing more than 60% year-over-year and will become the majority of Houzz's business next year. The Vista convertible note becomes due May 20, 2028.

Strava Partnered: 2014 Ownership: 5.2% Cost: $15M FMV: $109M

Strava is the social network for athletes. The company completed a large M&A transaction of a business called Runna in the first half of 2025, which was funded with a mix of debt and new equity. Financial performance is extremely strong across user growth, revenue growth and profitability. Strava is contemplating a first half of 2026 IPO.

Thumbtack Partnered: 2015 Ownership: 0.2% Cost: $5M FMV: $4M

Thumbtack is a marketplace for local services. The company exceeded its plan on both top-line and bottom-line metrics. Second-quarter revenue surpassed $128M, and Free Cash Flow (FCF) exceeded $20M. Revenue grew by 26%, attributed to a healthy combination of demand, fulfillment and monetization. Profitability improved to a 19% EBITDA margin. Thumbtack continues to work to further accelerate growth and harness AI as a sustaining force.

 # Remaining holdings post 5/27/2021 carried interest distribution

FUND OUTLOOK

The net multiple of US Growth VI stands at 3.3x with a net internal rate of return (IRR) of 20%. The Fund has seen ten successful IPOs and several meaningful acquisitions, resulting in 11 distinct investments that yielded a gain of at least $100M. If **Strava** manages a successful IPO in the near future, it could make Growth Fund VI the “11 IPOs” Fund. Overall, we are pleased with the Fund’s returns.

Disclaimer

This Report is confidential, trade secret and proprietary, is intended solely to provide a brief overview of selected Partnership metrics and is not intended to serve as the basis for any investment-related decision and is not an offer for partnership interests. It is not a substitute for the Partnership's official financial statements and is not a comprehensive presentation of the Partnership's financial or other status, prospects, or attributes. The General Partner may be in possession of material information not contained in this Report that would be necessary to fully understand the meaning and implications of information presented in this Report. Much of the information in this Report concerning portfolio companies was provided by the companies themselves and are based upon unaudited financial data and may not have been independently verified by the General Partner. Focus companies are not a representative sample of the Fund's financial status, prospects, or attributes.

All forward-looking statements are based upon assumptions that may not prove to be correct. The Appendix of Disclosures and/or Risk Factors provided to Limited Partners in connection with the formation of the Partnership is hereby incorporated by reference. For convenience, certain financial performance metrics may have been calculated using different conventions than used for other Partnership purposes. Net IRR is calculated based upon the due dates of LP capital calls and actual cash flow dates of distributions, using LP ending capital as the terminal value, and relate to the aggregate performance of limited partners in the Partnership; individual limited partner results may vary. The Fund may have utilized a short-term credit facility. Net IRR may be lower had the Fund called capital from Limited Partners at the time of each investment instead of utilizing a credit facility. Net Multiple is the sum of LP distributions and LP ending capital after taking into account allocations of carried interest, management fees and all other Fund expenses (as determined by the General Partner in good faith), divided by LP contributed capital. The Net Multiple does not reflect the return for all limited partners. An individual investor's return may vary due to different management fee arrangements and timing of capital transactions. By-company FMVs presented herein are gross of ASC740-10 tax accrual, where applicable. All numbers excluding Net IRR and Net Multiple are presented on a gross basis without the deduction of fees and expenses of the Partnership and include interests held by both the General Partner and Limited Partners. The deduction of fees and expenses will reduce returns, and such fees and expenses in the aggregate are expected to be substantial. Ownership reflects fully diluted ownership as of the period-end date. It is based on information provided by portfolio companies, which is not independently verified and is not audited. While such information is believed to be reliable for the purposes used herein, the Partnership does not assume any responsibility for the accuracy of such information. Past performance is not indicative of future results. It should not be assumed that recommendations made in the future will be profitable or will equal the performance of the investments in this Report or that investments listed herein will be profitable upon exit.

Unless otherwise noted, the information contained herein has been compiled as of June 30, 2025, and there is no obligation to update the information. The delivery of this Report will under no circumstances create any implication that the information herein has been updated or corrected as of any time subsequent to the date of publication or, as the case may be, the date as of which such information is stated.
