Report of independent auditors

To the General Partner of HongShan Capital Growth 2010 Fund, L.P.

Opinion

We have audited the accompanying consolidated financial statements of HongShan Capital Growth 2010 Fund, L.P. and its subsidiary (together the "Partnership"), which comprise the consolidated statement of assets, liabilities and partners' capital, including the consolidated condensed schedule of portfolio investments, as of December 31, 2024, and the related consolidated statements of operations, of changes in partners' capital, and of cash flows for the year then ended, including the related notes (collectively referred to as the "consolidated financial statements").

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Partnership as of December 31, 2024, and the results of its operations, changes in its partners' capital, and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the consolidated financial statements* section of our report. We are required to be independent of the Partnership and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of management for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Partnership's ability to continue as a going concern for one year after the date the consolidated financial statements are available to be issued.

Report of independent auditors (continued)

To the General Partner of HongShan Capital Growth 2010 Fund, L.P.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Partnership's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Partnership's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Report of independent auditors (continued)

To the General Partner of HongShan Capital Growth 2010 Fund, L.P.

Other information

Management is responsible for the other information included in the annual report. The other information comprises the unaudited financial statements as of December 31, 2024 as included in the quarterly report, but does not include the consolidated financial statements and our auditors' report thereon. Our opinion on the consolidated financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the consolidated financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

HongShan Capital Growth 2010 Fund, L.P.

(a Cayman Islands exempted limited partnership)

Notes to Consolidated Financial Statements

December 31, 2024

1. Organization

HongShan Capital Growth 2010 Fund, L.P., a Cayman Islands exempted limited partnership (the "Partnership"), was formed on October 20, 2010, for the purpose of making venture capital investments in startup and development stage companies and is an investment company following the accounting and reporting guidance in Accounting Standards Codification ("ASC") 946, Financial Services – Investment Companies. The General Partner is HSG Growth 2010 Management, L.P., a Cayman Islands exempted limited partnership. The term of the Partnership extends to November 5, 2025, with an option to extend one additional year. The consolidated financial statements are presented in United States Dollars ("\$").

2. Recent Accounting Pronouncements

In June 2022, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2022-03, Fair Value Measurement (Topic 820): Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions. ASU 2022-03 clarifies guidance about fair value measurement of equity securities subject to certain contractual sale restrictions and expands disclosures related to such equity securities. ASU 2022-03 is effective for the Partnership beginning January 1, 2025, although early adoption is permitted. The Partnership has assessed and concluded that there is no material impact on the Partnership's consolidated financial statements and related disclosures upon adoption of ASU 2022-03.

3. Accounting Policies

The significant accounting policies of the Partnership are as follows:

- (a) The Partnership uses the accrual method of accounting for financial reporting purposes.
- (b) Realized gains or losses on investments represent the difference between the original cost of the securities on an identified cost basis and the related market price on the sale or distribution date. They include the original cost of investments written-off, if any. When investments are sold or distributed to the partners, gains or losses are classified as realized. The differences between the original cost and the estimated fair value of investments owned at the end of the year represent unrealized appreciation or depreciation.
- (c) Cash and cash equivalents consist of highly liquid investments with original maturities of three months or less at the date of purchase. In general, federal and state income tax regulations require that the income or loss of the Partnership be included in the tax returns of the Partners. However, in certain circumstances the Partnership may be required to pay income taxes to a state or foreign country.
- (d) The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the General Partner to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of income (loss), unrealized appreciation (depreciation) and expenses during the reporting period. Actual results could differ from those estimates.

HongShan Capital Growth 2010 Fund, L.P.

(a Cayman Islands exempted limited partnership)

Notes to Consolidated Financial Statements

December 31, 2024

- (e) The Partnership's consolidated financial statements include the accounts of the Partnership and its wholly owned subsidiary, HSG Growth 2010 (HK) Limited. All intercompany balances and transactions have been eliminated upon consolidation.
- (f) For interests held in other Investment Companies, the Partnership records its purchase of investments at cost. The cost basis of the investment is adjusted for any distributions received from these Investment Companies. The Partnership uses the Net Asset Value ("NAV") to determine the fair value of these investments.
- (g) Investment securities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Partnership does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized gain (loss) and unrealized appreciation (depreciation) on investments.
- (h) The industry and country classifications of the Partnership's investments reflected in the Consolidated Condensed Schedule of Portfolio Investments represent the principal business and location of the investments. Country of risk is generally the country where the majority of the issuer's operations are based or where it is headquartered.
- (i) In accordance with the authoritative guidance on fair value measurements and disclosures under GAAP, the Partnership discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to valuations based upon unobservable inputs that are significant to the valuation (Level 3 measurements). The guidance establishes three levels of the fair value hierarchy as follows:

Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Partnership has the ability to access at the measurement date;

Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active;

Level 3 Inputs that are unobservable.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics and other factors. An investment's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The General Partner's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment. The General Partner considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, provided by multiple, independent sources that are actively involved in the relevant market. The categorization of an investment within the hierarchy is

HongShan Capital Growth 2010 Fund, L.P.

(a Cayman Islands exempted limited partnership)

Notes to Consolidated Financial Statements

December 31, 2024

based upon the pricing transparency of the investment and does not necessarily correspond to the General Partner's perceived risk of that investment.

Level 3 investments include privately held securities. When observable prices are not available for these securities, the General Partner uses one or more valuation techniques. These techniques mainly consist of market adjusted option pricing model and market approach. Within Level 3, the use of the market approach generally consists of using comparable market transaction multiples and/or comparable trading multiples. Management applies comparable trading multiples where such comparable multiples are available and appropriate.

Cash Equivalents

Cash equivalents are classified within Level 1 of the fair value hierarchy because they are valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency.

Publicly Held Securities – ADS and Ordinary Shares

Publicly held equity investments that are traded on an active exchange are valued at the quoted market price based on the last sale price on the measurement date. Quoted market prices are classified as a Level 1 input in the fair value hierarchy under ASC 820, *Fair Value Measurements and Disclosures*. If an active market does not exist for such publicly held equity investments, alternate valuation models using Level 2 or Level 3 inputs may be used to determine fair value. Investments may be classified as Level 2 when market information is available, yet the investment is not traded in an active market and/or the investment is subject to transfer restrictions.

Privately Held Securities – Ordinary Shares, Preferred Shares, Equity Interests, Notes and Others

Investments in private securities are not publicly traded, and are carried at their estimated fair values. The fair values of private security investments are determined by reference to projected revenues, net earnings, EBITDA, public market or private transactions, valuations for comparable companies and other measures which, in many cases, are unaudited at the time received. Valuations may be derived by reference to observable valuation measures for comparable companies or transactions (e.g., multiplying a key performance metric of the investee company such as revenue or EBITDA by a relevant valuation multiple observed in the range of comparable companies or transactions), adjusted by management for differences between the investment and the referenced comparables, and in some instances by reference to option pricing models or other similar methods. Private security investments may also be valued at cost for a period of time after an acquisition as the best indicator of fair value. Due to the inherent uncertainty of the valuation process, the General Partner's estimate of fair value may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material to the consolidated financial statements.

HongShan Capital Growth 2010 Fund, L.P.
(a Cayman Islands exempted limited partnership)
Notes to Consolidated Financial Statements
December 31, 2024

The following table presents the financial instruments carried on the Consolidated Statement of Assets, Liabilities and Partners' Capital by level within the valuation hierarchy as of December 31, 2024:

	Assets at Fair Value				
	Level 1	Level 2	Level 3	Other investments measured at net asset value	Total
Cash equivalents	\$ 16,800,000	\$ -	\$ -	\$ -	\$ 16,800,000
Total cash equivalents	\$ 16,800,000	\$ -	\$ -	\$ -	\$ 16,800,000
Publicly held ADS and ordinary shares	\$ 159,230,315	\$ -	\$ -	\$ -	\$ 159,230,315
Privately held preferred shares	-	-	14,108,078	-	14,108,078
Equity interests, notes and others	-	-	-	17,486,493	17,486,493
Total investments	\$ 159,230,315	\$ -	\$ 14,108,078	\$ 17,486,493	\$ 190,824,886

In accordance with ASC 820-10, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the amounts presented in the Consolidated Statement of Assets, Liabilities and Partners' Capital. The Partnership considers that all of its investments in Investment Companies meet the criteria to adopt the practical expedient.

There was no activity, including sales and purchases for the year ended December 31, 2024 for investments classified within Level 3. The classification of an investment within Level 3 is based upon the significance of the unobservable inputs to the overall fair value measurement.

The Partnership's policy is to recognize transfers in and transfers out as of the beginning of the reporting period. There was no transfer into or out of Level 3 during the year.

The following table summarizes the quantitative inputs and assumptions used for items categorized in Level 3 of the fair value hierarchy as of December 31, 2024. The table below excludes investments for which fair value is not based on quantitative unobservable inputs developed by the General Partner such as investments for which fair value is determined by NAVs, or recent, pending or expected transactions without adjustment.

Investments	Fair Value at December 31, 2024	Valuation Technique	Unobservable Input	Minimum	Maximum
Preferred shares	\$ 14,108,078	Market Comparable Companies/ Option Pricing Models	LTM Revenue Multiple	11.41	11.41
			NTM Revenue Multiple	10.05	10.05
			Discount for lack of marketability (DLOM)	17.20%	17.20%
			Estimated Time to Exit (in years)	2.00	2.00
			Risk-Free Interest Rate	0.70%	0.70%
			Volatility	52.40%	52.40%

HongShan Capital Growth 2010 Fund, L.P.

(a Cayman Islands exempted limited partnership)

Notes to Consolidated Financial Statements

December 31, 2024

Partnership Interest and Interest in Investment Companies

The Partnership uses the NAV to determine the fair value of all the underlying portfolio investments which (a) do not have a readily determinable fair value and (b) either have the attributes of an Investment Company or prepare their financial statements consistent with the measurement principles of an Investment Company. The Investment Company investment has not been classified in the fair value hierarchy.

The following table lists an investment in an Investment Company as of December 31, 2024:

Investment Strategy	Fair Value Determined Using NAV	Unfunded Commitments	Remaining Life	Redemption Terms*
Venture Capital	\$ 17,486,493	\$ -	0 - 1 year	Not applicable

* Redemptions are not permitted during the life of the fund.

4. Risks

While the General Partner believes its valuation methods are appropriate and consistent with those used by other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. Those estimated values may differ significantly from the values that would have been used had a readily available market for such investments existed, or had such investments been liquidated, and these differences could be material to the consolidated financial statements.

The Partnership intends to invest in portfolio companies that may be subject to extensive governmental regulations and oversight with respect to their business activities. The failure to comply with applicable regulations, obtain applicable regulatory approvals, or maintain those approvals so obtained, may subject the applicable portfolio company to civil penalties, suspension or withdrawal of any regulatory approval obtained, product recalls and seizures, injunctions, operating restrictions and criminal prosecutions and penalties, which could, individually or in the aggregate, have a material adverse effect on the Partnership's investment in such company.

Most of the portfolio companies in which the Partnership expects to make investments will initially be privately held. As a result, there will be no readily available secondary market for the Partnership's interests in such portfolio companies, and those interests will be subject to legal restrictions on transfer. Therefore, there is no assurance that the Partnership will be able to realize liquidity for such investments in a timely manner, if at all.

The Partnership may also have risk associated with its concentration of investments in certain geographic areas and certain industries.

Market Risk

Market risk encompasses the potential for both losses and gains and includes price risk, currency risk and interest rate risk.

HongShan Capital Growth 2010 Fund, L.P.

(a Cayman Islands exempted limited partnership)

Notes to Consolidated Financial Statements

December 31, 2024

5. Cash and Cash Equivalents

The Partnership's cash and cash equivalents at December 31, 2024 mainly consist of deposit with a major bank in Hong Kong. At times, these deposits may be in excess of insured limits.

6. Allocation of Profits and Losses

Realized profits and losses and unrealized appreciation and depreciation are allocated 30% to the General Partner and 70% among all partners in proportion to their respective capital subscriptions immediately prior to the date of such allocation.

If an allocation to the capital account of the General Partner of net realized loss or net losses deemed realized would cause the total amount of such losses allocated to the capital account to exceed the cumulative total of net realized profit allocated to the capital account of the General Partner, then any such excess loss shall first be allocated to the partners in proportion to their respective capital until the respective capital accounts of the Limited Partners are reduced to zero, and thereafter to the General Partner.

To the extent that an item of loss otherwise allocable to a Limited Partner would create a negative balance in the capital account of such Limited Partner the item shall not be allocated to such Limited Partner but shall instead be specially allocated as first to the partners as a group, to the extent possible in proportion to their respective capital commitments, until the capital account balance of each Limited Partner has been reduced to zero and next, to the General Partner.

If the allocation of all profits and losses cause the capital account balance of the General Partner to be less than zero, the General Partner must contribute to the capital of the Partnership an amount of cash or property equal to the lesser of the amount necessary to increase its capital account to zero or total aggregate incentive allocation ("Clawback"). As of December 31, 2024, the General Partner has been allocated \$581,331,519 cumulatively in carried interest and there is no Clawback.

Operating income and loss for each fiscal year or interim accounting period is allocated among the partners in proportion to their respective capital subscriptions as of the end of such period.

7. Partnership Capital

The total committed capital of the Partnership is \$604,500,000, of which \$722,302 is required to be contributed by the General Partner under the terms of the Partnership Agreement. An aggregate of \$571,252,473, approximately 94.5%, had been contributed as of December 31, 2024. The remaining committed capital will be paid in installments upon written notice given to all partners by the General Partner.

	General Partner	Limited Partners	Total
Committed capital	\$ 722,302	\$ 603,777,698	\$ 604,500,000
Amount not yet called	(39,687)	(33,207,840)	(33,247,527)
Capital contributions	\$ 682,615	\$ 570,569,858	\$ 571,252,473

HongShan Capital Growth 2010 Fund, L.P.

(a Cayman Islands exempted limited partnership)

Notes to Consolidated Financial Statements

December 31, 2024

8. Distributions and Withdrawals of Partnership Assets

Advanced distributions and withdrawals may be made in accordance with the terms of the Partnership Agreement. Distributions attributable to securities, whether in cash or in kind, are made 30% to the General Partner and 70% among all partners in proportion to their respective capital subscriptions. The General Partner must make an additional capital contribution equal to 30% of the aggregate cost basis of the asset distributed. In the case of an in-kind distribution, such contribution shall be in the form of full recourse promissory notes to the Partnership, payable by the General Partner and secured by such distributed assets. These notes do not bear any interest and are payable upon the earlier of (i) the date of which the asset is disposed by the General Partner or (ii) the dissolution of the Partnership. All other distributions are made to all partners in proportion to their respective capital subscriptions as of the date of such distribution. If the General Partner elects to receive less than the full amount of a distribution in respect of which a capital contribution is required, the amount of the capital contribution required shall be reduced ratably (so that the actual capital contribution shall be in the same proportion to the contribution otherwise required as the proportion of the actual distribution received by the General Partner to the full amount of the distribution to which the General Partner would otherwise have been entitled).

9. Management Fee

During the entire term of the Partnership, the Partnership shall pay in advance on the first day of each calendar quarter to the General Partner for its services in managing the business and affairs of the Partnership, an annual fee equal to 2.50% of the aggregate capital commitments of the partners, commencing on the first due date specified in the first capital call issued by the Partnership (the "Management Fee Commencement Date"). Commencing with the first complete fiscal quarter following the sixth anniversary of the Management Fee Commencement Date, the annual management fee rate shall be reduced by 0.25% per year, but shall not in any event be reduced to less than 1.50% of the aggregate capital commitments of the partners; provided however that, with respect to any period following the Partnerships' dissolution, the annual management fee rate shall be determined in good faith by the General Partner and a majority-in-interest of the Limited Partners. The General Partner pays all expenses incidental to the management of the business and affairs of the Partnership except certain reimbursable expenses as listed in the Partnership Agreement. During the extension period from November 6, 2020 to November 5, 2022, the General Partner elected to charge a 1% management fee. During the extension period from November 6, 2022 to November 5, 2025, no management fee will be charged.

10. Indemnification

The Partnership has provided general indemnifications to the officers, directors, members, employees and agents of the general partners, when they act, in good faith, in the best interests of the Partnership. Such indemnifications provided by the Partnership are subordinate to the liability coverage carried by the General Partner and should serve to mitigate any potential liability which may arise at the Partnership level. The Partnership is unable to develop an estimate of the maximum potential amount of future payments that could potentially result from any hypothetical future claim but expects the risk of having to make any significant payments under these general business indemnifications to be remote.

11. Income Taxes

The authoritative guidance on accounting for and disclosure of uncertainty in tax positions requires the General Partner to determine whether a tax position of the Partnership is more

likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. For tax positions meeting the more likely than not threshold, the tax amount recognized in the consolidated financial statements is reduced by the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the relevant taxing authority.

As of December 31, 2024, the partnership has no uncertain tax position.

The General Partner anticipates that there is a reasonable possibility that the total amount of uncertain tax positions may materially change within the next 12 months as a result of fluctuation in the estimated fair value of the related portfolio companies. An estimated range of possible adjustments cannot be reasonably determined.

The Partnership files tax returns as prescribed by the tax laws of the jurisdictions in which it operates. In the normal course of business, the Partnership is subject to examination by federal, state, local and foreign jurisdictions, where applicable. As of December 31, 2024, the earliest tax year that remains subject to examination in China under the statute of limitations is 2015.

The Partnership accrues all interest and penalties under relevant tax laws as incurred. As of December 31, 2024, the General Partner has determined that the Partnership does not have a liability for interest and penalties related to uncertain tax positions. For the year ended December 31, 2024, the General Partner has not incurred any interest expense or penalties related to uncertain tax position.

12. Financial Highlights

The Partnership is required to disclose financial highlights for the common interest in the Partnership (i.e., the Limited Partners' interest). These financial highlights consist of the operating expenses and net operating income ratios for the year ended December 31, 2024 and the Internal Rate of Return ("IRR") since inception of the Limited Partners, net of all fees allocated to the Limited Partners and profit allocations (capital and carried interest) to the General Partner, through December 31, 2023 and December 31, 2024. The following summarizes the Limited Partners' financial highlights:

Net operating income	0.51 %
Operating expenses	0.17 %
Incentive allocation	13.19 %
Operating expenses after incentives	13.36 %
Cumulative Internal Rate of Return through December 31, 2023	19.57 %
Cumulative Internal Rate of Return through December 31, 2024	19.68 %

The net operating income and operating expense ratios are computed as a percentage of average net assets.

The IRR was computed based on the due dates of cash inflows (capital contributions), actual dates of outflows (cash and the fair market value of stock distributions at the time of distribution), and the ending net assets at the end of the year (residual value) of the Limited Partners' capital account as of the measurement date.

These financial highlights may not be indicative of the future performance of the Partnership.
