

Garnett Station Partners: Credit Opportunities Fund 2.0

Q4 2025 Investor Report

Disclaimer and Other Important Disclosures

The information contained herein is being furnished by Garnett Station Partners, LLC ("GSP") on a confidential basis to existing limited partners in GSP Credit Opportunities Fund 2.0-A, L.P. or GSP Credit Opportunities Fund 2.0-B, L.P. (collectively, the "Fund"). Nothing herein shall constitute an offer to sell, or the solicitation of an offer to buy, any security, and any such offer or solicitation will only be made pursuant to the Fund's confidential private placement memorandum (the "Memorandum"), limited partnership agreement and subscription agreement, and will be subject to the terms and conditions contained in such documents in accordance with applicable securities laws. The information contained herein is not complete, does not contain certain material information about the Fund, including important conflicts disclosures and risk factors associated with an investment in the Fund, and is subject to change without notice. These materials are qualified in their entirety by reference to the Memorandum, including without limitation all of the cautionary statements and risk factors set forth therein, the limited partnership agreement and the subscription agreement.

Recipients of these materials agree that none of GSP or its affiliates shall have any liability for any misstatement or omission of fact or any opinion expressed herein. Each recipient further agrees that it will (i) not copy, reproduce, or distribute these documents, in whole or in part, to any person or party, including any employee of the recipient other than an employee directly involved in evaluating an investment in the Fund, without the prior written consent of GSP; and (ii) keep permanently confidential all information contained herein that is not already public. Additionally, by accepting these documents, each prospective investor agrees that these materials are being delivered to them subject to the provisions of (i) this disclaimer and (ii) any confidentiality agreement entered into between GSP and each prospective investor.

These documents are not presented with a view to providing investment advice with respect to any security, or making any claim as to the past, current or future performance thereof, and GSP expressly disclaims the use of these materials for such purposes. Each recipient should consult its own advisers as to legal, business, tax and other related matters concerning an investment in the Fund.

Past performance is not necessarily indicative, or a guarantee, of future results. Information about the Fund and prior investments and investment strategies of GSP and its professionals is provided solely to illustrate GSP's and its professionals' investment experience, processes and strategies. Such information is not intended to be indicative of the Fund's future results. There can be no assurance that the Fund will achieve results comparable to those presented or that the Fund will be able to implement its investment strategy or achieve its investment objective. Investors in the Fund may lose part or all of their invested capital.

Sales and EBITDA figures presented herein may be reflected on a pro forma basis. Additionally, amounts contained in these materials are generally unaudited and may be flash or preliminary amounts reported by the management team of a company. EBITDA figures reported to GSP may be adjusted for purposes of determining the estimated fair value of a company. Sales and EBITDA figures discussed in these materials with respect to a company are believed to be from reliable sources, but GSP does not attest to their accuracy.

"Gross MOIC" (referred to as "gross multiple on invested capital", i.e., the "total value" divided by "called capital") represents the multiple of "called capital" (presented on a levered basis inclusive of the effect of various financing facilities including a Fund-level subscription line and Fund-level total return swap ("TRS") facility), and does not reflect the deduction of management fees, investment-level expenses, fund-level expenses, carried interest or other incentive-based compensation and other fees and expenses borne by investors, which will reduce returns and may be significant.

"Net MOIC" refers to the levered net multiple of called capital (i.e., (x) the total actual levered cash flows of each position through September 30, 2025 (the "Measurement Period"), including the hypothetical repayment of any current positions as of the Measurement Period based on a valuation as determined by an unrelated third-party, and includes deductions for management fees, carried interest and other fees and expenses, divided by (y) total called capital).

"Gross IRR" refers to the aggregate, annual, compound, gross internal rate of return on an investment (presented on a levered basis inclusive of the effect of various financing facilities including a Fund-level subscription line and Fund-level TRS facility) which is based on (i) the actual cash inflows (including cash interest expense, delayed compensation, amortization payments, and realized proceeds from sales of positions) on the date each such inflow occurred and, with respect to any unrealized investment, the unrealized value as a terminal value as of the final day of the Measurement Period, and (ii) with respect to outflows, the cash movement on each date the relevant trade settled or various position-level financing expenses occurred, unless otherwise indicated. "Gross IRR" does not reflect the deduction of management fees, investment-level expenses, fund-level expenses, carried interest or other incentive-based compensation and other fees and expenses borne by investors, which will reduce returns and may be significant. An individual investor's Gross IRR is based on the actual timing of the cash outflows and inflows at the position level and thus may vary based on the timing of capital contributions from and distributions to investors. "Gross IRR" for any unrealized investment is not based on the actual timing of the capital outflows but takes into account the unrealized value as explained above.

"Net IRR" is calculated based on levered position-level cash outflows and inflows for each position as of the Measurement Period, which reflects the impact of all fund-level expenses, management fees and carried interest. Net IRR is calculated on standard limited partner terms. For trades, the cash outflow or inflow date is the date on which trades settled, while any cash interest expense or income, amortization, or other income or

expenses as received or incurred, respectively, are the dates of the actual cash flows and the illustrative portfolio liquidation date is as of the final day of the Measurement Period. These returns do not represent the actual returns of any particular investor.

"Regulatory Net IRR" is a hypothetical performance metric that is designed to show net returns if GSP had not used a subscription line of credit in respect of an investment, and is provided for illustrative purposes only. No such investors in the Fund experienced such hypothetical performance. Regulatory Net IRR relies on certain assumptions, including that Fund capital was uniformly invested in positions at the time all such trades settled instead of the time Fund capital was actually allocated to the name. Regulatory Net IRR reflects the deduction of management fees, carried interest, and other fees and expenses, but does not reflect the deduction of any interest expense or other borrowing costs since it assumes no subscription line of credit or bridge financing was used for any of the Fund's investments. An individual investor's actual Net IRR will vary based on the timing of capital contributions and distributions and will be affected by the Fund's use of a subscription line of credit or bridge financing. Net Performance figures for "extracted performance," e.g., individual investments or investments representing subsets of an individual fund's performance, are estimated and do not represent actual performance experienced by investors. These figures have been calculated on a model basis for the Fund by applying the gross and net performance spread of the Fund using the relevant metrics to the investment(s) shown. These figures illustrate the potentially substantial impact of fees, carried interest, and expenses on the gross returns of extracted performance, even though these amounts are charged or allocated at the Fund level.

Certain investment calculations contained herein include unrealized investment amounts. While GSP's valuations of unrealized investments are based on assumptions that GSP believes are reasonable under the circumstances, actual realized returns on unrealized investments will depend on, among other factors, future operating results, the value of the assets and market conditions at the time of disposition, any related transaction costs and the timing and manner of the sale, all of which may differ from the assumptions on which the valuations used in the performance data contained herein are based. Accordingly, the actual realized returns on these unrealized investments may differ materially from the assumed returns indicated herein. The actual realized return of any unrealized investments may differ materially from the current asset valuation indicated herein.

Information presented herein is as of the date indicated at the beginning of the document, or such other date otherwise indicated, and may have changed significantly since such relevant date. Statements contained in these materials are based on current expectations, estimates, projections, opinions and beliefs of GSP as of such relevant date. Such statements involve known and unknown risks and uncertainties, and undue reliance should not be placed thereon. Neither GSP nor any of its affiliates makes any representation or warranty, express or implied, as to the accuracy or completeness of the information contained herein, and nothing contained herein should be relied upon as a promise or representation as to past or future performance of the Fund or any other entity. Unless otherwise noted, the information contained herein is unaudited and may be preliminary and subject to change, and GSP and its members, partners, stockholders, managers, directors, officers, employees and agents do not have any obligation to update any of such information. In addition, certain information contained herein has been obtained from published and non-published sources and/or prepared by third parties, and in certain cases has not been updated through the date hereof. While such information is believed to be reliable for the purposes hereof, GSP assumes no responsibility for the accuracy or completeness of such information, and such information has not been independently verified by it. The inclusion of any third-party firm and/or company names, brands and/or logos does not imply any affiliation with these firms or companies. None of these firms or companies have endorsed GSP, the Fund or any entities or personnel.

Certain information contained herein constitutes "forward-looking statements," which can be identified by the use of terms such as "may," "will," "should," "could," "would," "predicts," "potential," "continue," "expects," "anticipates," "projects," "future," "targets," "intends," "plans," "believes," "estimates" (or the negatives thereof) or other variations thereon or comparable terminology. Forward-looking statements are subject to a number of risks and uncertainties, some of which are beyond the control of GSP, including, among others, the risks listed in the Memorandum. Actual results, performance, prospects or opportunities could differ materially from those expressed in or implied by the forward-looking statements. Additional risks of which GSP is not currently aware also could cause actual results to differ. In light of these risks, uncertainties and assumptions, prospective investors should not place undue reliance on any forward-looking statements. The forward-looking events discussed herein may not occur. GSP undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Select investments are presented for informational purposes only and are intended to illustrate GSP's sourcing experience and the profile and types of investments previously pursued by GSP. It should not be assumed that investments made in the future will be comparable in quality or performance to the investments described herein. Further, references to individual investments should not be construed as a recommendation of any particular investment or security.

The interests in the Fund have not been recommended, approved or disapproved by the U.S. Securities and Exchange Commission (the "SEC") or by the securities commission or regulatory authority of any state or of any other U.S. or non-U.S. jurisdiction, nor has the SEC or any such securities regulatory authority passed judgment upon the accuracy or adequacy of these materials. Any Fund securities will be subject to significant restrictions on transfer under the federal securities laws and the limited partnership agreement of the Fund. There is no trading market for the Fund's securities, and none is expected to develop. Therefore, investors should have the financial ability and willingness to accept the high risk and lack of liquidity inherent in an investment in the Fund for an extended period of time.

GSP Credit Opportunities Fund 2.0

COF 2.0	Initial Closing Date	Invested Capital ¹	Gross MOIC ² /IRR	Net MOIC ² /IRR	Regulatory Net IRR ²
	October 2023	\$145mm (Net of Returned Capital)	1.3x / 31.4%	1.2x / 17.0%	13.7%

We continue to find compelling investment opportunities to generate equity-like returns in senior parts of the capital structure in our target sectors, largely driven by size (smaller credits than most players' target) and sectors (unsexy, capital-intensive industries that we've specialized in for nearly fifteen years).

Since Q3'25, we have added ~\$116mm to new or existing investments and realized ~\$46mm in proceeds, including:

- **Xponential Fitness First Lien Term Loan:** Xponential Fitness is a franchisor of boutique fitness concepts (including Club Pilates, Pure Barr and YogaSix), which has had to deal with (i) management turnover, (ii) litigation noise related to the former owner and (iii) under-performance at smaller, non-core brands. The vast majority of the company's EBITDA is derived from Club Pilates, which is a high-quality franchisor of 1,369 units in the US, with highly attractive unit economics (~\$1mm AUV, 30%+ SLEBITDA margins) and a large new unit pipeline (1,954 licenses sold as of Q3'25). GSP has extensive experience underwriting Club Pilates, including through an equity investment in the franchisor and through multiple potential investments in various franchisees in the system. We participated in a new first lien loan to simplify the capital structure at a discount to par and with a above market coupon. The debt has a net detach of ~4.2x and an LTV (based on the public stock) of 54%³.
- **Sizzling Platter First Lien Term Loan:** Sizzling Platter is a multi-brand franchisee with 826 units primarily in the Little Caesars (471 units), Wingstop (187 units), Jamba (89 units), and Jersey Mike's (33 units) franchise systems. Sizzling Platter is either the largest or second largest franchisee in each of these attractive systems and is often the first institutional franchisee operator in its franchise systems. We have evaluated investment opportunities in the name for years until it was recently acquired by Bain Capital, a blue-chip equity sponsor in the restaurant sector. We initiated our first lien position at a net detachment of ~5.4x (with scaled franchisees trading for >8x) in a deal where credit investors did not appreciate the expected deleveraging driven by unit growth. We purchased a block from a seller in February 2026 when a holder engaged our opportunistic bid. We expect Sizzling to continue investing in accretive new units, primarily in Wingstop and Jersey Mike's, which we anticipate will de-lever the platform and continue to drive increasing free cash flow.
- **LaserAway First Lien Term Loan:** LaserAway is the leading national medical spa platform specializing in laser hair removal. We originally initiated the position in Q1'24, when we sourced the loan by offering timely liquidity to a non-traditional holder in the credit, made possible by our conviction in the industry and current trends through our investment in a similar (albeit smaller) platform in our private equity business. We added to the position in Q4 '25 as we opportunistically bid given our conviction on the strength of the brand, a covered credit in even our downside underwriting (50% LTV), and continued support from the sponsor (Ares).

We realized our entire position in the Franchise Group First Lien Term Loan through a repayment at a premium to par (103), generating a 30% gross / 18% net IRR and 1.11x net MOIC (due to its relatively short duration).

As of February 23, 2026, COF 2.0 is fully called and invested. We called the remaining capital during February to purchase a block of Sizzling Platter (highlighted above) when a seller sold at our opportunistic level during intraday market volatility caused by geopolitical headlines.

We remain prepared with an extensive and regularly maintained underwriting of 60+ credits, supplemented with in-depth learnings from our private equity platform, to build positions in loans at our target prices. We seek to stress cash flows and look to mid-cycle valuation multiples to assess our coverage through any earnings or macro weakness that may come.

¹ As of 12/31/2025; actual capital called shown net of the return of capital following the closing of various financing facilities and not factoring capital recycled. Past performance is not indicative of future results.

² As of 12/31/2025; MOIC based upon net capital called of \$145mm.

³ As of 02/20/2026 NYSE: XPOF closing stock price of \$8.29 per share.

As we have discussed with you, we are transitioning COF 2.0 to an evergreen structure effective as of March 31, 2026, which we believe will allow us to create a vehicle that can scale according to its opportunity set. We are preparing a supplemental presentation for investors, which will provide further insight into the composition and outlook for the portfolio.
