Focus Companies

The following are focus companies where we spend most of our time. We believe they will likely generate meaningful additional returns for the Fund.

ApnaMart

Partnered: 2022 Ownership: 10% Cost: \$4M FMV: \$7M

ApnaMart is building India's first omnichannel grocery network for Tier-2 and Tier-3 cities. The company is scaling offline retail stores that also service online demand and deliver within 15 minutes (Quick commerce in Tier 2/3 cities in India). It has scaled to ~\$43M in annualized sales across 180 stores and is expanding quickly. The focus for the next phase is to continue scaling the network, expanding margins, launching more categories, and converging unit economics.

Attentive.ai

Partnered: 2022 Ownership: 6% Cost: \$4M FMV: \$7M

Attentive is a vertical AI company focused on US construction and US outdoor services markets. The company is scaling well and ended at annualized recurring revenue (ARR) of ~\$8.8M in December 2025. They closed a \$30M series B round led by an institutional investor. The company has started building an AI team in SF and is making good early progress.

Checkbox

Partnered: 2021 Ownership: 10% Cost: \$4M FMV: \$4M

Checkbox is building the AI front door for in-house legal teams. The company ended 2025 with ~\$7M in ARR. It has a strong customer base including AT&T, Paramount, Coca-Cola, Stryker and Kyndryl, bringing the enterprise customer count to over 100. The company has secured a \$23M Series A investment and is well-funded for the next stage of growth.

Metaforms

Partnered: 2025 Ownership: 11% Cost: \$4M FMV: \$4M

Metaforms is a vertical artificial intelligence (AI) company developing AI agents for market research agencies. The company ended Q4 2025 with \$2M in contracted ARR across 20 customers. The company is focused on building an end-to-end market research operations platform while expanding coverage among leading market research firms.

DECEMBER 2025

NUMBERS ARE PRELIMINARY, UNAUDITED & SUBJECT TO REVISION

SriMandir

Partnered: 2021 Ownership: 7% Cost: \$4M FMV: \$11M

SriMandir (AppsForBharat) is developing a distinctive consumer internet company focusing on divinity in India. The company is on track to deliver FY2026 (year ending March 2026) revenues of \$15M. Unit economics continue to be healthy with gross margins at 78% and contribution margin after marketing at over 10%. Focus is on improving retention, reducing cost of acquisition and building several purely digital apps (e.g. astrology, daily prayers). The company is well financed with \$30M in the bank.

Triple A

Partnered: 2022 Ownership: 5% Cost: \$2M FMV: \$2M

Triple-A is a licensed stablecoin payments infrastructure company. The company ended Q4'2025 with approximately ~\$2B in annualized total payments volume (TPV) and \$12M net revenue run rate at over 80% gross margin. The company added several new clients this year including Trip.com and NetEase and has started receiving Money Transmitter Licenses in the US. The Peak XV team helped the company hire a strong CRO, CPO and CTO and the company is now better prepared to execute its 2026 growth targets.

TrueFoundry

Partnered: 2021 Ownership: 9% Cost: \$3M FMV: \$6M

TrueFoundry offers an AI Platform-as-a-Service and LLM Gateway for large enterprises. The company ended Dec 2025 with \$3M in contracted ARR and an additional \$2M of services ARR. The company is focused on scaling its enterprise go-to-market efforts and further expanding its AI platform stack.

Variational Research

Partnered: 2021 Ownership: 7% Cost: \$5M FMV: \$23M

Variational Research offers a perpetual futures platform for crypto trading. Variational closed a new round at approximately \$500M fully diluted value. The company plans a token sale later this year. In the most recent reporting period (Q4 CY2025), the revenue reported was \$38M annualized.

DECEMBER 2025

NUMBERS ARE PRELIMINARY, UNAUDITED & SUBJECT TO REVISION

WATI

Partnered: 2021 Ownership: 11% Cost: \$2M FMV: \$13M

WATI enables businesses to run verticalized solutions on WhatsApp, servicing customers globally from South America to India. The company processes over 4.5B messages in 12 different languages. WATI delivered 58% growth in 2025 and has an annualized net revenue run rate of \$22M, with gross revenue of \$34M. The company has strategically shifted its focus to mid-market customers (Annual Customer Value greater than \$3K), resulting in lower churn and improved retention. Wati recently launched its native AI product, Astra, a conversational intelligence layer, and is working on adding another channel to its product offering.

FUND OUTLOOK

Seed Fund II is a 2021 vintage fund that was invested too quickly. But we have several early winners emerging including **Variational Research**, **WATI**, **Attentive.ai**, **Apnamart**, **Triple A** and **SriMandir**. A few of our early software investments are beginning to find product-market-fit (PMF), including **Truefoundry**, **Checkbox** and **Momos**. We have recycled the early liquidity from this fund into four promising companies, including **Metaforms** and **Apriora**. There is a lot of work ahead to make this fund successful, and we are strongly committed to it.

It is not a substitute for the Fund's official financial statements and is not a comprehensive presentation of the Fund's financial or other status, prospects, or attributes. The Class B Shareholder may be in possession of material information not contained in this Report that would be necessary to fully understand the meaning and implications of information presented in this Report. Much of the information in this Report concerning portfolio companies was provided by the companies themselves and is based upon unaudited financial data and may not have been independently verified by the Class B Shareholder. While such information is believed to be reliable for the purposes used herein, none of the Fund, Class B Shareholder nor any of their respective affiliates, partners, members or employees assume any responsibility for the accuracy of such information. Focus companies are not a representative sample of the Fund's financial status, prospects, or attributes.

All forward-looking statements are based upon assumptions that may not prove to be correct and actual future operations, or financial performance may differ materially from these forward-looking statements. This includes any mentions of potential public listings or sale processes, the timing and completion of which remain subject to regulatory approvals, market conditions, and various other factors. The Appendix of Disclosures and/or Risk Factors provided to prospective Shareholders in connection with the formation of the Fund is hereby incorporated by reference. The information given herein is in summary form and is not necessarily complete. For convenience, certain financial performance metrics may have been calculated using different conventions than used for other Fund purposes. Net IRR is calculated based upon the due dates of shareholder capital calls and actual cash flow dates of distributions, using shareholder ending capital as the terminal value, and relates to the aggregate performance of shareholders in the Fund; individual shareholder results may vary. By-company FMVs presented herein are gross of ASC740-10 tax accrual, where applicable. All numbers excluding Net IRR and Net Multiple are presented on a gross basis without the deduction of fees and expenses of the Fund and include interests held by both the Class C Shareholder and Class A Shareholders. The deduction of fees and expenses will reduce returns, and such fees and expenses in the aggregate are expected to be substantial. There can be no assurance that such investments will be realized at such estimated values, as actual realized returns will depend on a number of factors that may be beyond Class B Shareholder's control. Past performance is not indicative of future results.
