Annual Report

December 31, 2024

March 14, 2025

To our Limited Partners:

Enclosed please find our year end reporting package. As always, we welcome your feedback as well as the opportunity to answer any questions that you may have.

Valuation Policy

We continue to primarily use valuation modeling tools such as Option Pricing Models (based upon past private financing terms) and revenue multiple models (which use public market comps). However, since 2021 when many of our companies raised significant rounds, there have been significantly fewer financing rounds available for OPM modeling, and we need to rely more upon judgment and forecasts from the companies and detailed conversation with our investment professionals and board members. That said, all of these methods are imperfect and result in only unrealized valuation estimates. We therefore encourage you to focus on our realizations and distributions rather than any interim unrealized valuations.

Organizational Updates

We want to share that Ryan Connor has recently departed Accel. We appreciate Ryan's contributions and wish him well. We are currently engaged in a search for a Global Chief Financial Officer to replace Ryan.

Other Updates

Ryan Sweeney and Ryan Smith are working towards launching their new partnership and closing their inaugural fund, HX One. HX One is expected to commence operations in Q2 2025.

We continue to look for interesting ways to engage and strengthen relationships with the current and potential future entrepreneurial community and across the broader technology ecosystem. To stay abreast of these and other activities, thought leadership pieces, news, and upcoming events, please visit our [News and Insights page](#), our [website](#), or follow us on [X](#). If you haven't already subscribed for the Accel Family newsletter that includes updates on all things Accel, please subscribe [here](#).

Please feel free to contact us for additional information or questions on your investments and, for anything related to the current status of Accel funds, please contact Jess Segal.

Thank you again for your continued support.

—Team Accel

Report of Independent Auditors

The General Partner
Accel Leaders 4 L.P.

Opinion

We have audited the financial statements of Accel Leaders 4 L.P. (the Partnership), which comprise the statement of assets and liabilities, including the condensed schedule of investments and the schedule of capital contributions, as of December 31, 2024, and the related statements of operations, changes in partners' capital and cash flows for the year then ended, and the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Partnership at December 31, 2024, and the results of its operations, changes in its partners' capital and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Partnership and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Partnership's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

**Shape the future
with confidence**

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free of material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Partnership's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Partnership's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Shape the future
with confidence**

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. We previously audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements for the period from commencement of operations to December 31, 2023 (none of which are presented herein) and expressed an unmodified opinion on those financial statements. The accompanying cumulative statement of partners' capital for the period from May 26, 2023 (commencement of operations) to December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Notes to Financial Statements
December 31, 2024

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Accel Leaders 4 L.P. (the Partnership) was formed as a limited partnership pursuant to the laws of the State of Delaware on April 7, 2022. The Partnership Agreement was amended and restated on June 15, 2022, and the Partnership commenced operations on May 26, 2023. The Partnership is managed by Accel Leaders 4 Associates L.P. (the General Partner) and Accel Management Co. L.L.C. Accel Management Co. L.L.C. is registered with the U.S. Securities and Exchange Commission as an investment adviser under the Investment Advisers Act of 1940. The Partnership consists of the General Partner and a number of Limited Partners, and was formed to invest primarily in information technology, internet, mobile, networking, software and special situation companies and entities in the venture capital development or growth stage. The Partnership has entered into a management agreement with Accel Management Company L.L.C. (Note 2). The term of the Partnership extends to December 31, 2033, unless terminated at an earlier date as provided for in the Partnership Agreement.

Certain of the Partnership investments are made through Accel Leaders 4 Holdings (Mauritius) Ltd. (the Holding Company). The Partnership holds 94.92% of the share capital of the Holding Company. The Holding Company in turn may hold direct investments. The company is a Mauritian private company limited by shares and holds a category 1 Global Business License that allows it to make use of double taxation treaty benefits. As of December 31, 2024, no investments have been made through the Holding Company.

Basis of Accounting

The accompanying financial statements are presented using accounting principles generally accepted in the United States (U.S. GAAP). The Partnership is an investment company and applies specialized accounting guidance as outlined in Financial Accounting Standard Board (FASB) Accounting Standards Codification (ASU) Topic 946, *Financial Services – Investment Companies* (ASC 946). Management has evaluated this guidance and has determined that the Partnership meets the criteria to be classified as an investment company. Financial statements prepared on a U.S. GAAP basis require management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known, which could impact the amounts reported and disclosed herein.

Investment Valuation

The Partnership applies ASC 820 *Fair Value Measurement* (ASC 820) which clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements. The Partnership invests primarily in companies in the development or growth stage. Investments in non-public companies were purchased in private transactions pursuant to an exemption from the registration and prospectus delivery requirements of the Securities Act of 1933. These investments are subject to certain restrictions with respect to their sale or transfer. All investments are recorded at fair value with any changes in fair value recognized in the statement of operations as the change in unrealized gain/(loss) on investments. The Partnership does not isolate the changes in fair value of the Holding Company. These changes are included in the change in unrealized gain/(loss) on investments in the statement of operations. Similarly, realized gains and losses in investments held in the Holding Company are included within the realized gain/(loss) on investments.

Companies in the portfolio are carried in the financial statements at fair value determined as follows:

The values estimated for the investments in non-public companies represent fair values as determined by the General Partner in accordance with the Partnership Agreement based on available information.

Accel Leaders 4 L.P.
Notes to Financial Statements
December 31, 2024

Investment Valuation (continued)

Factors considered by the General Partner in determining fair value include cost, the type of investment, subsequent purchases of the same or similar investments by the Partnership or other investors, the current financial position and operating results of the company invested in, and such other factors as may be deemed relevant. Factors considered when determining fair value for non-public companies that have not been involved in a qualifying external event include but are not limited to, option pricing models, industry valuation methods such as price to enterprise value or price to equity ratios, discounted cash flow, valuation comparisons to comparable public companies or other industry benchmarks. Estimating fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The estimated values do not necessarily represent amounts that might ultimately be realized, because such realization depends on future circumstances. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material. The carrying amounts of cash and cash equivalents and short-term receivables and payables approximate their estimated fair values because of the short-term maturity of those instruments.

For investments in public companies which are actively traded on a national exchange, the fair value is determined to be the last quoted sales price at year end.

The guidelines set out in ASC 820 and applied by the General Partner are as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities to which the Partnership has access at measurement date; for example, investments in public companies;

Level 2 – Significant observable inputs other than quoted prices that are observable for the asset or liability either directly or indirectly;

Level 3 – Significant unobservable inputs; for example, investments in non-public companies where the estimated values have been determined as described above.

As required by ASC 820, the following table analyzes the Partnership's investments in securities based on their Level 1, Level 2, or Level 3 classification as determined by the General Partner.

Fair Value Measurements at December 31, 2024

	Level 1	Level 2	Level 3	Total Estimated Fair Value
Common	\$ 125,204,000	\$ -	\$ 658,521,028	\$ 783,725,028
Preferred	-	-	1,427,739,082	1,427,739,082
Total Investments	\$ 125,204,000	\$ -	\$ 2,086,260,110	\$ 2,211,464,110

During the year ended December 31, 2024, Level 3 investments at cost of \$1,456,187,200 were purchased, and no investments were transferred into or out of Level 3.

Accel Leaders 4 L.P.
Notes to Financial Statements
December 31, 2024

Investment Valuation (continued)

The following table presents quantitative information regarding unobservable inputs used in arriving at fair value measurements for certain investments classified as Level 3. In estimating the fair value of these investments, the Partnership considers recent transactions in the subject company's stock, and complements and/or corroborates those market observations through the use of some or all of the valuation techniques in the following table as considered appropriate. To the extent that multiple valuation techniques are used, probability weightings are assigned to arrive at the estimates of enterprise value.

Investment Type	Fair Value at December 31, 2024	Valuation Technique	Unobservable Input	Range
Equity securities	\$1,656,077,701	Market comparable companies	Revenue multiple - LTM - NTM EBITDA multiple - LTM - NTM Discount for lack of marketability	5.3-18.3x 4.3-15.1x 39.1x 29.8x 0-23%
		Option pricing model	Volatility Risk-free interest rate Estimated time to exit	58-95% 4.2-4.7% 3-4 years

The above table excludes \$430,182,409 of investments where the fair market value of Level 3 investments was determined by methods using unadjusted inputs that have not been internally developed by the Partnership such as reference to recent private transactions in illiquid markets or third party valuation reports as of December 31, 2024.

Investment Industries and Geographies

As of December 31, 2024, all investments held are in the following sectors and geographies:

Industry	Cost	Fair Value	% of Net Assets
Software and Services	\$1,494,254,415	\$1,554,708,116	70%
Infrastructure	284,760,000	284,760,000	13%
Financial Services	246,947,624	246,791,994	11%
Artificial Intelligence	94,968,152	125,204,000	5%
Total	\$2,120,930,191	\$2,211,464,110	99%

Geography	Cost	Fair Value	% of Net Assets
United States	\$1,626,251,929	\$1,694,045,714	76%
United Kingdom	189,995,623	189,839,993	8%
Netherlands	94,968,152	125,204,000	6%
Israel	113,904,175	113,903,995	5%
Germany	95,810,312	88,470,408	4%
Total	\$2,120,930,191	\$2,211,464,110	99%

Accel Leaders 4 L.P.
Notes to Financial Statements
December 31, 2024

Foreign Currency

The books and records of the Partnership are maintained in U.S. dollars. Assets and liabilities denominated in foreign currencies are translated at the rates of exchange prevailing at the date of the financial statements. Transactions in foreign currencies are translated at the rates of exchange prevailing at the time of the transaction. The Partnership reports the impact of changes in foreign exchange rates as a component of the realized and unrealized gains and losses from investments as applicable.

Foreign Securities

The Partnership invests in the securities of foreign companies that involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and future adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Income Taxes

In general, the federal and state income tax regulations require that the income or loss of a partnership be included in the tax returns of the partners. However, in certain circumstances, the Partnership (or another legal entity which is consolidated in the Partnership's financial statements) may be required to pay income taxes to a state or foreign country.

The Partnership applies the provisions of ASC 740 *Income Taxes*. The guidance clarifies the accounting for uncertainty in income taxes that requires the General Partner to determine whether a tax position of the Partnership is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. For tax positions meeting the more likely than not threshold, the tax amount recognized in the financial statements is the largest benefit that has a greater than fifty percent likelihood of being realized upon settlement with the relevant taxing authority. The Partnership records the impact of uncertain tax positions on unrealized appreciation as an offset to the fair value of investments in portfolio companies. For realized gains, the Partnership reflects tax provisions, if any are required, on the statement of assets and liabilities. As of December 31, 2024, the Partnership has no material exposure to unrecognized tax benefits. The Partnership recognizes interest and penalties as income tax expense in the statement of operations. During the year, the Partnership did not accrue any interest or penalties.

The accompanying financial statements of the Partnership reflect no provision or liability for income taxes because the Partnership will be treated as a partnership for federal income tax purposes; accordingly, profits and losses are allocated to the partners and are includable in the income tax returns of the partners. Generally, the Partnership is subject to income tax examinations by Federal jurisdiction for tax years 2021 and beyond, for major state tax jurisdictions for tax years after 2020 and beyond, and for foreign jurisdictions for tax years after 2021 and beyond.

Cash and Cash Equivalents

Cash and cash equivalents, if any, consists of cash and interest-bearing money market deposits. The Partnership places its cash deposits and temporary cash investments with creditworthy, high quality financial institutions in the U.S. and Mauritius. Amounts may exceed federally insured limits and this potentially subjects the Partnership to a concentration of credit risk. The Partnership has not experienced any losses in such accounts. None of the Partnership's cash is restricted.

The Partnership considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents. Investments in money market mutual funds are reported at the net asset value on the valuation date and are classified as Level 1 in the fair value hierarchy.

Accel Leaders 4 L.P.
Notes to Financial Statements
December 31, 2024

Cash and Cash Equivalents (continued)

The Partnership enters into overnight repurchase agreements, secured by U.S. government or agency securities, which involve the purchase of securities from a counterparty with a simultaneous commitment to resell the securities at an agreed-upon date and price. It is the Partnership's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transactions, including accrued interest, at all times. In the event of default by the counterparty, the custodian bank has the contractual right to liquidate the collateral securities and to apply the proceeds in satisfaction of the obligation. As of December 31, 2024, the Partnership was party to overnight repurchase agreements with South Street Securities as transferor and Silicon Valley Bank as custodian, due January 2, 2025. The overnight repurchase agreements were collateralized by government agency securities with value of at least 100 percent of the fair value of such agreements.

As of December 31, 2024, cash and cash equivalents include \$24,767,980 held in money market funds and repurchase agreements.

Investment Transactions and Income

Realized gains or losses on investments represent the difference between the original cost of the investments and the consideration, net of expenses of sale. When investments are sold or distributed to partners, gains or losses are classified as realized.

Interest is recorded on the accrual basis.

Related Party Transactions

Due to the investment strategy of the Partnership, certain members of the General Partner may serve on the board of directors of portfolio companies in which the Partnership holds investment positions. Additionally, the Partnership coinvests with other entities with the same investment adviser as the Partnership.

Recent Accounting Pronouncements

In December 2023, the FASB issued accounting standard update, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures* ("ASU 2023-09"), which requires the annual financial statements to include income taxes paid disaggregated by jurisdiction. ASU 2023-09 is effective for the Partnership's annual reporting periods beginning after December 15, 2025. Adoption is either with a prospective method or a fully retrospective method of transition. Early adoption is permitted. The Partnership is currently evaluating the effect that adoption of ASU 2023-09 will have on its financial statements.

2. MANAGEMENT FEE

The Partnership Agreement provides that a fee be paid to Accel Management Company L.L.C. for management and supervisory services provided to the Partnership. The annual management fee is equal to 2.0% of the capital contributions of the partners (commencing on June 5, 2023) and is subject to step-down reductions of 10% on January 1st following the 7th anniversary of the Initial Contribution Date and each year thereafter, through and including the first two years in which the term of the Partnership is extended. For any Fiscal Years thereafter, the management fee shall be equal to the lesser of the fee as calculated above, or 2.0% of the net asset value of the Partnership, as defined in the Partnership Agreement.

3. PARTNERS' CAPITAL ACCOUNTS

Capital Contributions

When notified by the General Partner in accordance with the Partnership Agreement, each partner shall make such additional capital contributions as are required to fulfill its capital commitment. Partners must be given 10 days' notice before such contributions are due.

Capital Calls Made During The Year

			<u>\$1,580,118,500</u>

Capital Distributions

The General Partner may, in its sole discretion, retain or distribute the assets of the Partnership pursuant to the terms and restrictions of the Partnership Agreement.

Capital Account Allocations

Pursuant to the terms of the Partnership Agreement, net profits and net losses are allocated to the partners' accounts: 80% to the Limited Partners and 20% to the General Partner. If aggregate net losses allocated to the Limited Partners exceed aggregate net profits allocated to the Limited Partners, then net profits and net losses are allocated to the partners' accounts: 99% to the Limited Partners and 1% to the General Partner. Loss reallocation represents the reallocation of net profits or losses necessary to affect the cumulative profit or loss attributable to the General Partner. Net temporary investment profits or losses are allocated among the partners in accordance with their respective Partner Percentages as defined in the Partnership Agreement.

For the year ended December 31, 2024, carried interest allocations to the General Partner totaled \$18,109,333. Where applicable, carried interest is the portion of investment interest income, dividend income, realized and unrealized gains/(losses) allocated to the General Partner's capital account, in accordance with the Partnership Agreement.

4. SELECTED FINANCIAL HIGHLIGHTS

The Partnership has presented the following disclosures as required by ASC 946 *Financial Services – Investment Companies*. Such results for the year ended December 31, 2024 may not be indicative of future performance:

Internal Rate of Return net, since inception (see below):

At December 31, 2024	3.01%
At December 31, 2023	(1.57%)

Ratios to average net assets (see below):

Expenses	(1.96%)
Impact of General Partner's carried interest	(1.27%)
Expenses and General Partner's carried interest	<u>(3.23%)</u>
Net investment income/(loss)	(1.60%)

Total committed capital	\$4.0 billion
Ratio of contributed capital to committed capital	54.5%

The Internal Rate of Return is calculated net of carried interest and expenses, taking into account any contributions and distributions during each quarter.

The ratios to average net assets are computed on the weighted average net assets of the Limited Partners for the year ended December 31, 2024.

Expenses include the Limited Partners' share of the management fees and other Partnership expenses. Net investment income/(loss), as defined, excludes realized and unrealized gains/(losses), as well as the effect, if any, of the General Partner's carried interest. It is the Limited Partners' share of interest income, dividends, and other income earned, net of expenses.

5. GENERAL INDEMNIFICATION

Generally, no partner is individually liable for any debts or obligations of the Partnership in excess of its unpaid capital commitments. Pursuant to the terms of the Partnership Agreement, the General Partner is indemnified and held harmless by the Partnership in connection with its activities on behalf of the Partnership. The Partnership has not had any claims or losses pursuant to these indemnifications and expects the risk of loss to be remote.

The General Partner has been named as a defendant on certain legal matters concerning a current portfolio company. Based on information known by management, the resolution of the matters are not expected to have a material adverse impact on the Partnership's financial statements, although the outcome of legal proceedings are inherently unpredictable and subject to significant uncertainties. Given such uncertainty, management is unable to determine whether an unfavorable outcome is either probable or remote and is unable to estimate a range of potential loss, if any, related to these matters.

6. SUBSEQUENT EVENTS

In accordance with ASC 855-10 *Subsequent Events*, the Partnership's management has evaluated subsequent events as they relate to the reported balances through February 28, 2025, which is the date that the financial statements were available for issuance.
