| Avg. Current Ownership <sup>1</sup>  | 8.6%  | Companies Exited                | 41  |
| Avg. Fund VLRP discount <sup>2</sup> | 34%   | Scout, Crypto and Fund of Funds | 98  |
| Proceeds (\$M)                       | 44    | Remaining                       |     |
| FMV (\$M)                            | 174   |                                 |     |
| Net IRR                              | -2.0% |                                 |     |
| Net Multiple                         | 0.9x  |                                 |     |

## Net Returns

## Pace of Investment

<sup>1</sup> The data is calculated after excluding Scout, Crypto and Fund of Funds investments, if any.

<sup>2</sup> Average Fund VLRP discount is calculated based on the difference between Value at Last Round Price ("VLRP") and carrying FMV. This analysis is non-exhaustive, directional and is based on companies representing 75% or more of the total Fund FMV.

---

**Focus Companies**

The following are the remaining focus companies that occupy the majority of our time. They will likely generate the most meaningful additional returns for the Fund.

---

**Absolute**

Partnered: 2021    Ownership: 10%    Cost: \$2M    FMV: \$12M

Absolute is a bio-science company that develops and sells intellectual property (IP)-driven proprietary agricultural inputs. Last year marked the first full year of commercial operations for these agricultural products, which has demonstrated a healthy margin profile and competitive differentiation. The company has decided to discontinue its agricultural trading business that has low margin and is not strategic. The company is now focused solely on its IP-driven agricultural inputs business.

---

**ApnaMart**

Partnered: 2022    Ownership: 10%    Cost: \$4M    FMV: \$7M

ApnaMart is building India's first omnichannel retail network for Tier-2 and Tier-3 cities. The company is scaling offline retail stores that also service online demand and deliver within 15 minutes (Quick commerce in Tier 2/3 India). It has scaled to approximately \$35M in annualized sales across 120 stores and is expanding quickly. The focus for the next phase is to continue scaling the network, expanding margins, and converging unit economics.

PEAK XV PARTNERS SEED FUND II (2021) CONTINUED

---

**Attentive.ai**

Partnered: 2022    Ownership: 9%    Cost: \$4M    FMV: \$4M

Attentive.ai is a vertical Artificial Intelligence (AI) company specializing in outdoor services and the construction industry in the United States. Initially focusing on outdoor services, the company launched a new product called Beam 18 months ago, aimed at the US construction industry. Beam is an AI-first "outcome-as-a-service" offering that automates "take-offs" in the construction value chain. The new offering is scaling rapidly. The company crossed \$9M in Annualized Recurring Revenue (ARR) in June 2025 and is growing at over 100% YoY.

---

**Checkbox**

Partnered: 2021    Ownership: 8%    Cost: \$4M    FMV: \$4M

Checkbox is a legal AI company with a vision to become the "ServiceNow for legal". In H1 2025, they landed enterprise logos such as Stryker, Circle and Disney. The customer expansion is accelerating with Disney, Hitachi and Pepsi nearly doubling their contract within a quarter of signing. The company is at around \$5M annual recurring revenue (ARR) and is focused on building its GTM engine to scale further.

---

**Metaforms**

Partnered: 2025    Ownership: 11%    Cost: \$4M    FMV: \$4M

Metaforms is a vertical AI company developing AI agents for market research agencies. The company assists large market research agencies in automating mundane, repetitive workflows through highly bespoke agents. Currently, the company has two agents live - a survey programming agent and a data processing agent. Metaforms ended Q2 FY2025 with \$1.4M in annualized recurring revenue (ARR) from 11 customers. The company is focused on launching more agents to capture additional spending from existing customers while building the go-to-market (GTM) machinery to serve new customers.

---

**Nirmata**

Partnered: 2025    Ownership: 9%    Cost: \$4M    FMV: \$4M

Nirmata specializes in providing policy-based automation, security and governance for Kubernetes environments. At the core of Nirmata's offerings is the open-source project Kyverno, a policy engine designed specifically for Kubernetes. Nirmata has several large enterprise customers including Visa, Novartis, and First Abu Dhabi Bank and has an annual recurring revenue (ARR) of ~\$3M.

---

**SriMandir**

Partnered: 2021    Ownership: 7%    Cost: \$4M    FMV: \$11M

SriMandir (AppsForBharat) is developing a distinctive consumer internet company focusing on divinity in India. The company offers a digital platform where users can make offerings at over 70 temples across India, with the number of temples expanding rapidly. The app has 1.6M monthly active users (MAU) and 182K monthly transacting users (MTU). Revenue continues to scale well and crossed \$12M annualized revenue run rate in June 2025, with ~ 80% gross margin. The company closed a \$20M Series B extension in H1 2025 and is well-capitalized.

---

**Triple A**

Partnered: 2022    Ownership: 5%    Cost: \$2M    FMV: \$2M

Triple A is a licensed stablecoin payments infrastructure company. The company ended Q2 FY2025 with approximately \$1.4B in total payment value (TPV) run rate and \$10M in revenue run rate at over 80% gross margin. The stablecoin market is currently experiencing significant growth, and Triple A is regarded as one of the most compliant and legitimate players in the industry with over four major licenses. For the remainder of the year, the company is focused on building out the leadership team to accelerate growth in 2026.

---

**TrueFoundry**

Partnered: 2021    Ownership: 9%    Cost: \$3M    FMV: \$6M

TrueFoundry is developing an artificial intelligence (AI) Platform-as-a-Service for large enterprises. The company ended June 2025 with \$1.8M of contracted annualized recurring revenue (ARR) and an additional \$1.3M of services ARR. The company is focused on continuing to scale its enterprise go-to-market efforts and further expand its AI platform stack.

---

**WATI**

Partnered: 2022    Ownership: 11%    Cost: \$2M    FMV: \$13M

WATI enables businesses to communicate in a personalized manner with their customers globally. The company achieved over 40% growth in June 2025, ending with more than \$28M in annualized revenue. WATI is focused on scaling its mid-market customer base, launching new artificial intelligence (AI) products and addressing churn in the small enterprise segment.

## FUND OUTLOOK

Seed Fund II is a 2021 vintage fund that was invested too quickly but we have several early winners emerging including **WATI**, **Attentive.ai**, **Apnamart**, **Triple A** and **SriMandir**. A few of our early software investments are beginning to find PMF including **Truefoundry**, **Checkbox** and **Momos**. We had early liquidity from this fund, most of which we are recycling into promising companies such as **Nirmata** and **Metaforms**. We marked down our position in **Probo** to cost, as their India business was impacted by a regulatory change. There is a lot of work ahead to make this fund successful, and we are strongly committed to it.

While such information is believed to be reliable for the purposes used herein, none of the Fund, Class B Shareholder nor any of their respective affiliates, partners, members or employees assume any responsibility for the accuracy of such information. Focus companies are not a representative sample of the Fund's financial status, prospects, or attributes.

All forward-looking statements are based upon assumptions that may not prove to be correct and actual future operations, or financial performance may differ materially from these forward-looking statements. The Management Letters should be read in conjunction with Appendix of Disclosures and/or Risk Factors provided to Shareholders in connection with the formation of the Fund. The information given herein is in summary form and is not necessarily complete. For convenience, certain financial performance metrics may have been calculated using different conventions than used for other Fund purposes. Net IRR is calculated based upon the due dates of shareholder capital calls and actual cash flow dates of distributions, using shareholder ending capital as the terminal value, and relates to the aggregate performance of shareholders in the Fund; individual shareholder results may vary. By-company FMVs presented herein are gross of ASC740-10 tax accrual, where applicable. All numbers excluding Net IRR and Net Multiple are presented on a gross basis without the deduction of fees and expenses of the Fund and include interests held by both the Class C Shareholder and Class A Shareholders. The deduction of fees and expenses will reduce returns, and such fees and expenses in the aggregate are expected to be substantial. There can be no assurance that such investments will be realized at such estimated values, as actual realized returns will depend on a number of factors that may be beyond Class B Shareholder's control. Past performance is not indicative of future results.

This Report may not be reproduced or redistributed in whole or in part, in any format. The information in this Report may not be relied on in any manner as legal, tax or investment advice or as an offer to sell or solicitation of an offer to buy an interest in any fund or investment vehicle managed/advised by the Class B Shareholder or any related investment advisor, including Peak XV Partners Operations LLC.
