Report of Independent Auditors

The Managing Member
American Rivers Fund, LLC

Opinion

We have audited the financial statements of American Rivers Fund, LLC (the “Company”), which comprise the statements of assets, liabilities and members’ equity, including the condensed schedules of investments, as of December 31, 2025 and 2024, and the related statements of operations, changes in members’ equity and cash flows for the years then ended, and the related notes (collectively referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2025 and 2024, and the results of its operations, changes in its members’ equity, and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free of material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

AMERICAN RIVERS FUND, LLC
(A Limited Liability Company)

Notes to Financial Statements

Years Ended December 31, 2025 and 2024

(1) Organization

American Rivers Fund, LLC (the “Company”) was formed on November 7, 2018, under the Delaware Act and commenced operations on December 19, 2018 (the “Initial Closing”). The managing member of the Company is MP Louisiana, LLC (the “Managing Member”), a Delaware limited liability company. The Company is managed by Maritime Partners, LLC (the “Investment Manager”), a Delaware limited liability company.

The Company is an investment fund formed for the principal purpose of capitalizing on acquisitions and leasing opportunities in the inland marine industry by providing maritime assets and leasing solutions to the full range of market participants in the United States Jones Act trade. The Company’s investment strategy focuses on providing attractive, stable cash yields to the members of the Company (“Members”), with an emphasis on creating upside optionality while retaining disciplined downside protection principles.

The capitalized terms used within have the meanings set forth in the relevant governing documents.

The Company’s term is unlimited, and the Company will be liquidated and wound up only upon certain events of dissolution, as specified in the Second Amended and Restated Limited Liability Company Operating Agreement (“Company Agreement”).

The Company has delegated various administrative duties to SS&C Technologies, Inc. as Administrator of the Company.

Members and former Members have no liability for any debt or obligation of the Company, except to the extent of their interest in the Company, nor do they have any obligation to contribute or make payments to the Company, except as provided by law or in the event that taxes withheld by the Managing Member and paid over to a taxing authority in respect of a Member exceed any distributable amounts payable to such Member.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The Company operates as an investment company in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 946, *Financial Services – Investment Companies*. The Company’s financial statements are prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) and are stated in the United States dollar.

(b) Investments in Special Purpose Vehicles

Investments in affiliated special purpose vehicles (“SPVs”) consist of equity interests in United States companies that invest in various types of vessels. The Company’s investments in these SPVs are stated at fair value by evaluating the fair value of the net assets of the SPVs. The net assets of each underlying SPV are valued based on each underlying investment within each SPV incorporating valuations that consider the evaluation of purchase and sale transactions with third parties, expected cash flows, market-based transactions, replacement costs and third-party appraisals, among other factors.

AMERICAN RIVERS FUND, LLC
(A Limited Liability Company)

Notes to Financial Statements

Years Ended December 31, 2025 and 2024

The fair values of the Company's investments in SPVs are net of third-party debt outstanding of the SPVs. As of December 31, 2025 and 2024, third-party debt and interest outstanding attributable to the Company's investment in SPVs was \$1,688,164,155 and \$778,065,215, respectively. The Company served as a recourse guarantor on third-party loans in the amount of \$920,907,164 and \$104,560,642 as of December 31, 2025 and 2024, respectively. Investments in SPVs are generally categorized in Level 3 of the fair value hierarchy, which is further discussed in Note 4.

In accordance with ASC 946, the Company does not consolidate its investments in portfolio companies. Instead, such investments are generally reported at fair value, with changes in fair value recognized in the statement of operations.

In certain cases, SPVs are established to aggregate investments in a specific operating company or borrower. In these situations, the Company does not consolidate the SPV. Instead, it reports its investment based on the estimated value of the equity interest in the underlying portfolio company, as if the investment had been made directly. Any debt that exists at these certain SPVs is allocated to and netted against the estimated fair value of the underlying portfolio company.

(c) ARF Warehouse Holdings LLC

Effective November 22, 2024, the Company transferred its interests in Project Merchant Acquisition LLC, Project Eagle Acquisition LLC, and MG Transport Acquisition, LLC to ARF Warehouse Holdings LLC ("ARF Warehouse") and simultaneously entered into a warehouse loan agreement (the "Warehouse Loan") with a syndicate of lenders under which a revolving credit facility was initially made available in the amount of \$750 million. In January 2025, American Coastal Marine LLC – an SPV wholly owned by ARF Warehouse formed to acquire and hold maritime vessels – was added to the Warehouse Loan as a co-borrower and pledged its assets as collateral. In connection with the acquisition of Centerline Logistics Corporation in August 2025, the facility was increased to \$1.1 billion, and certain assets of Centerline Logistics Corporation and Great Lakes Towing Company were added to the facility, further expanding the pool of Co-borrowers. Under the Warehouse Loan Agreement, ARF Warehouse and certain affiliates of the aforementioned subsidiaries of the Company (collectively, the "Co-borrowers") can borrow up to a specified amount generally based on the value of specified assets owned by the Co-borrowers. The Co-borrowers participate in the Warehouse Loan Agreement on a joint and several basis.

ARF Warehouse is not consolidated by the Company as discussed in footnote 2(b) and is not presented as a separate investment on the Company's Condensed Schedules of Investments. Instead, the net assets of ARF Warehouse are allocated among the subsidiary Co-borrowers based on the Investment Manager's determination of the appropriate economic exposure, which considers each Co-borrower's borrowing base collateral. The Investment Manager reviews and updates the allocation methodology periodically, and such allocations are used to determine fair value and reflect the Company's economic interests in the Co-borrowers, as reflected in the Condensed Schedules of Investments.

AMERICAN RIVERS FUND, LLC
(A Limited Liability Company)

Notes to Financial Statements

Years Ended December 31, 2025 and 2024

Draws on the Warehouse Loan Agreement are generally treated as returns of capital and reduce the Company's investment cost basis in the respective Co-borrowers. However, in certain instances, ARF Warehouse may borrow under the facility for the specific purpose of distributing cash from a restricted collateral account used for debt servicing. When such cash originates from investment operations rather than refinancing activity, the proceeds are recognized as dividend income in the Company's Statements of Operations.

Repayments under the Warehouse Loan Agreement of borrowings, interest expense, and other financing costs incurred by ARF Warehouse are not recorded directly by the Company. Instead, these are reflected through changes in the fair value of the Company's allocated investments in the subsidiary Co-borrowers. While the Company does not consolidate ARF Warehouse or the Warehouse Loan Agreement, it does provide a recourse guaranty on borrowings under the facility, which may subject the Company to potential obligations in the event of a default.

During 2025, ARF Warehouse distributed net loan proceeds of \$843,948,620 to the Company pursuant to borrowings under the Warehouse Loan Agreement. Subsequently, ARF Warehouse allocated its entire outstanding balance of \$944,892,637 to the respective Co-borrowers via a non-cash push-down transfer.

(d) Use of Estimates

The presentation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(e) Operating Expense Policy

The Company recognizes all expenses incurred in connection with its investing activities, as well as legal, accounting, tax preparation, and auditing fees on an accrual basis.

(f) Cash and Cash Equivalents

Cash and cash equivalents include unrestricted cash as well as money market and time deposits with maturities of three months or less from date of purchase. Balances in U.S. bank accounts are insured by the Federal Deposit Insurance Corporation up to \$250,000 per depositor, per institution. As of December 31, 2025 and 2024, the Company held cash deposits of \$2,494,401 and \$858,926, respectively, with financial institutions, and did not hold any cash equivalents.

(g) Organizational Costs

The Company shall pay, or reimburse the Managing Member, the Investment Manager, and their respective Affiliates, for the payment of the Organizational Expenses paid through the due to affiliate on the Statement of Assets, Liabilities and Members' Equity (regardless of whether the same were incurred before or after the Initial Closing Date). Placement Fees shall be paid by the Managing Member, the Investment Manager, or an Affiliate thereof.

AMERICAN RIVERS FUND, LLC
(A Limited Liability Company)

Notes to Financial Statements

Years Ended December 31, 2025 and 2024

(h) Investment Transactions and Related Investment Income

The Company records investment transactions at trade date. Distributions from affiliated SPVs are recorded as dividend income when received to the extent such amounts are related to earnings and profits and represent cash generated from operations. Distributions in excess of earnings and profit are classified as return of capital and reduce the cost basis of the Company's investments. Unrealized appreciation on investments reflects any fair value adjustment of SPV assets and liabilities.

(i) Income Taxes

The Members intend that the Company shall be treated as a partnership for federal, state and local income tax purposes, and the Company shall not elect, and the Managing Member shall not permit the Company to elect, to be treated as an association taxable as a corporation for federal, state or local income tax purposes under Regulations Section 301.7701-3 or under any corresponding provision of state or local law. Each Member and the Company shall file all tax returns consistent with such treatment.

Notwithstanding anything to the contrary herein, if the Company becomes subject to any taxes as a result of any adjustment to taxable income, gain, loss, deduction or credit for any taxable years of the Company (whether pursuant to a tax audit or otherwise), each Member shall indemnify the Company and the Managing Member against any such taxes (including any interest and penalties) to the extent such taxes (or portion thereof) are properly attributable to such Member. In such event, the Managing Member, at its option, may (i) require such Member to reimburse the Company for the amount of such taxes (including interest and penalties) properly attributable to such Member (it being understood that any such reimbursement shall not constitute a Contribution and, accordingly, shall not reduce the Remaining Commitment or increase the Capital Account of such Member) or (ii) reduce any subsequent distributions to such Member by the amount of such taxes (including interest and penalties) properly attributable to such Member. In the event of any claimed over-assessment of taxes against a Member, such Member shall be limited to an action against the applicable jurisdiction and not against the Company or any Member. The Managing Member, on behalf of the Company, may take any action permitted under applicable law to avoid the assessment of any such taxes against the Company (including an election to issue adjusted Internal Revenue Service Schedule K-1s to the Members which take the relevant adjustments to taxable income, gain, loss, deduction, or credit into account).

ASC 740, *Income Taxes*, provides guidance on how uncertain tax positions should be recognized, measured, presented, and disclosed in the financial statements and requires evaluation of tax positions taken or expected to be taken on the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. The Managing Member has analyzed such tax positions and has concluded that no unrecognized tax benefit should be recorded for uncertain tax position for all open tax years, which may vary from inception to date, depending on the relevant tax jurisdiction. Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense on the statement of operations. For the years ended December 31, 2025 and 2024, the Company was not required to establish a liability for uncertain tax positions.

AMERICAN RIVERS FUND, LLC
(A Limited Liability Company)

Notes to Financial Statements

Years Ended December 31, 2025 and 2024

In the event the Company is audited by the taxing authority under The Bipartisan Budget Act of 2015, any adjustments will generally be assessed at the Company level (tax, interest, and penalties) for tax years beginning on or after January 1, 2022. The Company representative will take any and all actions permissible under The Bipartisan Budget Act of 2015. No such examinations were in process as of December 31, 2025. As of December 31, 2025, The Company is subject to examination by U.S. federal and applicable state tax authorities for tax years 2022 through 2025, which remain open under the statute of limitations.

The Inflation Reduction Act of 2022 (the “IRA”) made significant changes to U.S. federal income tax laws (and certain corresponding state and local conformity measures). The IRA enacted a 15% corporate alternative minimum tax (“CAMT”) on certain large corporations and related party entities (through attribution), which became effective on January 1, 2023. Proposed regulations and subsequent notices have been issued by the U.S. Department of Treasury (“Treasury”) and the Internal Revenue Service (“IRS”) during 2024 and 2025. Management will continue to monitor potential future applicability and changes to these rules.

On July 4, 2025, the One Big Beautiful Bill Act (the “OBBBA”) was signed into law (with certain corresponding state and local conformity measures). The OBBBA extends several provisions from the 2017 Tax Cuts and Jobs Act along with other domestic and international corporate tax provisions (e.g., an expanded interest expense limitation, accelerated bonus depreciation, and expensing of domestic research and development costs). Management has reflected any impact of the OBBBA on the financial statements, including any impact to the value of investments. Management will continue to monitor as additional guidance is released by the Treasury, the IRS, and other standard-setting bodies.

The Organization for Economic Co-operation and Development (“OECD”) introduced a 15% global minimum tax under the Pillar Two Global Anti-Base Erosion (“Pillar Two”) model rules. Several OECD member countries have enacted tax legislation based on certain elements of these rules that became effective on January 1, 2024. Other jurisdictions have announced the intent to implement these rules, but the rules remain subject to significant negotiation, potential change, and phase-in periods. Management has concluded that the Company falls outside the scope of the Pillar Two rules but will continue to monitor potential future applicability and changes to these rules.

(3) Related Party Transactions

(a) Management Fees

Commencing with the calendar month in which the initial closing occurred, the Company pays the Investment Manager a monthly Management Fee, calculated with respect to each Member, equal to 0.125% (the monthly equivalent of 1.50% per annum) of the total Acquisition Cost of the Company’s or its SPV’s investments, adjusted for their relative equity interest in the investment at any time during such calendar month, multiplied by such Member’s Unit Percentage as of the last day of such calendar month. Certain Members’ Management Fees may differ based on the terms agreed upon.

AMERICAN RIVERS FUND, LLC
(A Limited Liability Company)

Notes to Financial Statements

Years Ended December 31, 2025 and 2024

The Management Fees incurred for the years ended December 31, 2025 and 2024 were \$34,238,691 and \$31,748,527, respectively, of which \$1,254 and \$0 is reflected as management fee payable, respectively. A portion of the Management Fees are paid directly by certain portfolio investments to the Investment Manager. These fees reduce both the Management Fees and the dividend income recognized from the respective portfolio investments. For the years ended December 31, 2025 and 2024, Management Fees in the amount of \$9,852,962 and \$8,942,223, respectively, were incurred and paid at the portfolio investment level and are reported as Management Fee offsets on the statement of operations. The Management Fee is payable in arrears on the last Business Day of each calendar month.

(b) Other Related Party Transactions

The Company has related party transactions with certain Members of the Company. These amounts include payments that were made on another affiliate's behalf through the normal course of business. As of December 31, 2025 and 2024, the due to affiliate balance was \$0 and \$84,704, respectively, and the due from affiliate balance was \$91,638 and \$0, respectively.

Maritime Partners Services, LLC ("MPS"), an affiliate of the Investment Manager that is majority-owned by the principals of the Investment Manager, manages a new vessel construction program. From time to time, MPS either sells or assigns newly constructed vessels to SPV affiliates of the Company. Such sales and assignments are made at cost, meaning neither MPS nor the Investment Manager receive any compensation or fees in connection with such transactions. While MPS generally transfers these newly constructed vessels to SPV affiliates of the Company, MPS may, at its discretion (and subject to applicable governing documents), sell newly constructed vessels to third-party purchasers. During the years ended December 31, 2025 and 2024, the Company, through its affiliated SPVs, acquired vessels at cost from MPS totaling approximately \$41.2 million and \$61.4 million, respectively.

(4) Investments

(a) Fair Value of Investments

In accordance with ASC 820, *Fair Value Measurements and Disclosures*, the Company's investments are recorded at fair value, which is the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). Due to the inherent uncertainty of valuations of investments that are determined to be illiquid and/or do not have readily ascertainable fair values, the estimates of fair value may differ from the values ultimately realized by the Company, and those differences could be material.

In accordance with ASC 820, the Company classifies its investments in three levels of the fair value hierarchy as described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Quoted prices for similar items in active markets or quoted prices for identical or similar items in markets that are not active, for which all significant inputs are observable, either directly or indirectly.

AMERICAN RIVERS FUND, LLC
(A Limited Liability Company)

Notes to Financial Statements

Years Ended December 31, 2025 and 2024

Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurements and are unobservable.

The Company's investments in the SPVs are classified as Level 3 at December 31, 2025 and 2024. The hierarchy established under ASC 820 gives the highest priority to unadjusted quoted prices in active markets of identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Company's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those investments.

During the years ended December 31, 2025 and 2024, the Company purchased \$1,149,924,528 and \$40,736,354 of Level 3 investments, respectively. There were no transfers into or out of Level 3 during the years ended December 31, 2025 or 2024.

The following table summarizes quantitative information about the Company's inputs as of December 31, 2025 and 2024:

<u>Investment Type</u>	<u>Fair Value as of December 31, 2025</u>	<u>Valuation Technique</u>	<u>Unobservable Inputs</u>	<u>Range</u>
Operating Companies	\$1,226,800,000	Market Approach	EBITDA Multiple	5.2x - 9.8x
		Income Approach	Discount Rate	9.25% - 21.00%
			Terminal Capitalization Rate	7.25% - 19.00%
Maritime Vessels	\$759,700,000	Income Approach	Discount Rate	6.83% - 6.87%
		Cost Approach	Replacement Cost	\$860,000 - \$29,000,000
			Scrap Value	\$70,000 - \$5,750,000
Other Investments	\$64,400,000	Income Approach Asset Based Approach	Various	N/A
<u>Investment Type</u>	<u>Fair Value as of December 31, 2024</u>	<u>Valuation Technique</u>	<u>Unobservable Inputs</u>	<u>Range</u>
Operating Companies	\$1,035,600,000	Market Approach	EBITDA Multiple	6.5x - 10.0x
		Income Approach	Discount Rate	10.50% - 11.50%
			Terminal Capitalization Rate	8.50% - 9.50%
Maritime Vessels	\$731,700,000	Income Approach	Discount Rate	7.38% - 7.38%
		Cost Approach	Replacement Cost	\$910,000 - \$29,000,000
			Scrap Value	\$69,000 - \$5,000,000
Other Investments	\$38,899,081	Income Approach Asset Based Approach	Various	N/A

AMERICAN RIVERS FUND, LLC
(A Limited Liability Company)

Notes to Financial Statements

Years Ended December 31, 2025 and 2024

The Company's investments in the SPVs are stated at fair value by evaluating the fair value of the net assets of the SPVs (the "Equity Value"). The carrying value of the SPVs assets and liabilities such as cash, accounts receivable, other current assets, accrued expenses, loans and other liabilities are considered to be representative of their respective fair value given their short-term nature and the frequency of their settlement. The valuation of vessel assets considers valuations performed by independent third parties and includes (1) market approach whereby fair value is derived by reference to observable valuation measures for comparable assets (2) income approach (e.g. the discounted cash flow valuation technique, which takes into consideration current lease rates, lease renewal rates, scrap value of vessels, discount rates, and maintenance expense), and (3) cost approach which represents current replacement cost less loss of value caused by deterioration/obsolescence. Management has also corroborated the valuation of vessels based on various factors, including the expected cash flows, market-based transactions, and recent leasing comparables.

The Company's investments in operating companies are stated at fair value based on enterprise value methodologies that consider the underlying performance and financial position of each portfolio company. The carrying values of short-term assets and liabilities, such as cash, receivables, payables, and other current balances, are considered representative of fair value due to their short duration and settlement cycle. Valuation techniques applied to operating companies incorporate both company-specific data and market-based inputs, and may include: (1) Market approach, using valuation multiples (e.g., EV/EBITDA) derived from guideline public companies and recent comparable transactions, (2) Income approach, based on discounted cash flow analyses incorporating projected earnings, terminal value assumptions, and discount rates reflective of market risks and company-specific factors; and (3) Asset-based approach, where appropriate, valuing the individual net assets of the Company. Management evaluates the reasonableness of fair value estimates by considering recent transaction activity, operating performance trends, and industry developments relevant to each investment.

(5) Risks and Uncertainties

In the normal course of business, the Company encounters different kinds of risk ranging from risks associated with the Company's management and operations, risk associated with the Company's investment and investment structure, leverage risk, risk associated with markets and the economy, risk associated with regulatory and compliance matters, and risks factors relating to tax and accounting considerations.

Risk associated with the Company's investment and investment structure include the uncertainty of future investments are unspecified, investment performance, uncertain asset valuations, lack of diversification, capital raise, expedited investment decisions, long-term investment strategy, illiquidity of investments, fraud, counterparty risk, insurance, contingent liabilities on disposition of investments, competitive market, certain effects on default and bankruptcy, third-party involvement, availability of qualified operators, construction risks, regulatory risks, operating and technical risks, environmental risks, catastrophic and force majeure events; adequacy and availability of insurance, litigation, documentation risks, charter rates, vessel values, terrorism and international hostilities, charter renewal or replacement, technological innovation, requisition, and arrest of vessels. Leverage risks can be caused by the risks of leverage, and requirements of financing documents. Risks associated with markets and the economy can be due to changes in market circumstances and infrastructure risks. Risks associated with regulatory and compliance matters can be caused by regulation, Members' restrictions, and public disclosure obligations.

Years Ended December 31, 2025 and 2024

(6) Debt Facilities

On December 20, 2022, the Company entered into a loan and security agreement and guaranty with East West Bank (“EWB”) which provides a \$75,000,000 credit facility to the Company with an initial maturity date of December 20, 2023. The Company shall have the option to extend the maturity date from time to time (but not more than once during any twelve-month term and not more than two times during the term of the agreement, with each such additional term not to exceed twelve months, subject to satisfaction of the conditions with EWB). On December 20, 2023, the Company renewed its agreement with EWB for twelve months, to mature on December 20, 2024. On April 1, 2024, the Company temporarily increased the credit facility to \$100,000,000 with an incremental \$25,000,000 with an initial maturity date of October 1, 2024, and subsequently extended through November 30, 2024, at which time the credit facility capacity reverted to \$75,000,000. On December 20, 2024, the Company renewed its agreement with EWB for twelve months, to mature on December 20, 2025, and on December 8, 2025, the Company extended the maturity date until February 2, 2026.

During the years ended December 31, 2025 and 2024, the Company drew down \$152,050,767 and \$66,096,376, respectively, under the agreement with EWB and repaid \$167,804,767 and \$111,356,376, respectively. The Company’s prime-based advances bear interest, on the outstanding daily balance thereof, at the greater of a floating rate of interest equal to the prime-based rate or 7.00%, and the term secured overnight financing rate (“SOFR”) advances bear interest, on the outstanding daily balance thereof, at the greater of a rate of interest equal to the term SOFR-based rate or 7.00%. As of December 31, 2025 and 2024, the average EWB balance was \$27,816,257 and \$67,456,157, respectively, the outstanding EWB balance was \$0 and \$15,754,000, respectively, and interest payable was \$0 and \$15,223, respectively. During the years ended December 31, 2025 and 2024, interest paid on this agreement was \$2,084,382 and \$5,659,174, respectively.

An unused fee is charged on this credit facility with EWB, equal to (i) if the average quarterly balance is less than 25.00% of the total revolving commitments, 0.35% per annum times the difference between the total revolving commitments and the average quarterly balance, (ii) if the average quarterly balance is equal to or greater than 25.00%, but less than 50.00% of the total revolving commitments, 0.25% per annum times the difference between the total revolving commitments and the average quarterly balance, and (iii) if the average quarterly balance is equal to or greater than 50.00% of the total revolving commitments, 0.15% per annum times the difference between the total revolving commitments and the average quarterly balance, which fee shall be payable quarterly in arrears within five (5) business days after receipt of an invoice therefor sent after the last day of each such quarter and shall be nonrefundable. As of December 31, 2025 and 2024, the Company was in compliance with all covenants.

AMERICAN RIVERS FUND, LLC
(A Limited Liability Company)

Notes to Financial Statements

Years Ended December 31, 2025 and 2024

(7) Company Capital

(a) Contributions

The following table summarizes the Company's capital commitments, contributions, and unfunded commitments as of December 31, 2025 and 2024:

	2025		2024	
	Amount (\$)	% of Total	Amount (\$)	% of Total
Total committed capital	\$ 2,464,034,385	100.00%	\$ 1,741,606,095	100.00%
Life to date contributions, net of withdrawals	1,847,006,885	74.96%	1,590,572,210	91.33%
Unfunded commitment	\$ 617,027,500	25.04%	\$ 151,033,885	8.67%

(b) Subsequent Closings

Following the initial closing, the Company may accept additional capital commitments ("Additional Commitments") at any time, subject to the approval of the Investment Manager. The Investment Manager may not hold a subsequent closing unless at least 70% of total Commitments with active Investment Periods have been either (i) invested or reserved for investments pursuant to a letter of intent or definitive agreement, or (ii) used or reserved for the payment of actual or reasonably anticipated Company expenses, including Management Fees.

During the year ended December 31, 2025, the Company accepted \$741,527,500 through subsequent closings. No subsequent closings occurred during the year ended December 31, 2024.

(c) Withdrawals

Members are subject to a lock-up period before becoming eligible to withdraw from the Company. For the Managing Member and Members admitted at the initial closing, the lock-up expired on December 1, 2021. For all other Members, the lock-up expires on the December 1 immediately following the third anniversary of their admission to the Company.

Once eligible, a Member may elect to withdraw by delivering a Redemption Notice to the Managing Member during the month of December. Withdrawals are effective as of the close of business on December 31 of the year in which the notice is delivered, and the resulting withdrawal payable is paid in four installments over the course of the subsequent calendar year.

Notwithstanding the lock-up period, a Member may withdraw prior to becoming eligible if continued investment in the Company would cause the Member to violate any applicable law, rule, or regulation governing its investments, as provided under Article XV of the Company Agreement.

During the years ended December 31, 2025 and 2024, Members made withdrawals of \$23,357,532 and \$18,393,874, respectively.

AMERICAN RIVERS FUND, LLC
(A Limited Liability Company)

Notes to Financial Statements

Years Ended December 31, 2025 and 2024

(8) Distributions and Allocations

(a) Distributions

Distributions from the Company are made from two sources: Disposition Proceeds, derived from the sale, disposition, or recapitalization of investments, and Current Proceeds, derived from all other sources. Each distribution is initially apportioned between the Managing Member and the other Members in proportion to their respective Unit Percentages as of the apportionment date.

After this initial apportionment, the portion attributed to each Member is further allocated between that Member and the Managing Member in accordance with the appropriate carried interest waterfall described below. The Managing Member's share of distributions received through the waterfall constitutes realized Carried Interest.

Current Proceeds Waterfall (Prior to Dissolution)

Distributions of Current Proceeds apportioned to a Member during any calendar year are allocated between that Member and the Managing Member as follows:

Step 1 — Preferred Return: 100% to the Member, until the Member has received aggregate Current Proceeds during the calendar year equal to 7% of the Member's Weighted Invested Capital.

Step 2 — Prior-Year Shortfall: 100% to the Member, until the Member has received an amount equal to any cumulative shortfall in preferred return distributions from prior calendar years not previously made up.

Step 3 — Catch-Up: 50% to the Member and 50% to the Managing Member, until the Managing Member has received aggregate distributions (across Steps 1 through 3) equal to 20% of total distributions received by the Member and the Managing Member under this waterfall.

Step 4 — Residual Split: 80% to the Member and 20% to the Managing Member.

Disposition Proceeds Waterfall (and Post-Dissolution Current Proceeds)

Upon the distribution of Disposition Proceeds, or in the event Current Proceeds are distributed on or after the dissolution of the Company pursuant to Article XII, the allocation between each Member and the Managing Member follows a modified waterfall:

Step 1 — Return of Capital: 100% to the Member, until the Member has received aggregate distributions equal to its total Contributions.

Step 2 — Preferred Return: 100% to the Member, until cumulative distributions to the Member (including both Current Proceeds preferred return and this step) equal a 7% per annum return on the Member's Weighted Invested Capital, computed from the later of January 1, 2019 or the Member's admission date through the distribution date.

Step 3 — Catch-Up: 50% to the Member and 50% to the Managing Member, until the Managing Member's aggregate distributions (combining the Current Proceeds catch-up and this step) equal 20% of all distributions received by the Member and the Managing Member across both waterfalls.

AMERICAN RIVERS FUND, LLC
(A Limited Liability Company)

Notes to Financial Statements

Years Ended December 31, 2025 and 2024

Step 4 — Residual Split: 80% to the Member and 20% to the Managing Member.

For purposes of the above computations, a Member's "Weighted Invested Capital" means the daily average of such Member's invested capital for the applicable calendar year or other relevant period.

The following distributions were made to Members during the years ended December 31, 2025 and 2024:

	2025	2024
Distribution of Current Proceeds	\$ 165,042,568	\$ 157,944,804
Distribution of Disposition Proceeds	-	463,035
Total distributions	<u>\$ 165,042,568</u>	<u>\$ 158,407,839</u>

The following table summarizes the Carried Interest allocated to the Managing Member during the years ended December 31, 2025 and 2024:

	2025	2024
Realized Carried Interest	\$ 27,669,455	\$ 36,299,867
Cumulative Unrealized Carried Interest	\$ 45,560,887	\$ 39,363,378

For the years ended December 31, 2025 and 2024, \$26,737,621 and \$35,607,288 was paid to the Managing Member as realized Carried Interest, respectively.

(b) Allocation of Company Income and Losses

The Company's income, gains, losses, deductions, and credits will be allocated among the Members so as to conform, in the judgment of the Managing Member, as nearly as practicable to the related distributions or expected distributions as described above.

The Company calculates Members' Net Asset Value ("NAV") per Unit on a quarterly basis. Units are issued to Members when their capital commitments are drawn down at the NAV per Unit in place at the time that the applicable commitment was accepted. If the NAV per Unit changes as of any quarter-end after the commitment was accepted, this change does not impact the price at which the Units are issued to the applicable Member when the commitment is drawn down. In accordance with the Company Agreement, profit and loss allocated to each Member are adjusted to equalize the NAV per Unit across all Members' capital accounts as of the end of each calendar quarter or other relevant period. Management fees are allocated amongst the Members in accordance with their respective amounts and their economic effect remains with the respective Member.

AMERICAN RIVERS FUND, LLC
(A Limited Liability Company)

Notes to Financial Statements

Years Ended December 31, 2025 and 2024

(9) Members' Units

Each Unit issued to an Additional Member or Increased Member in respect of their Contributions (or the Contributions made in respect of the increased portion of its Commitment, in the case of an Increased Member) shall be issued at the price equal to the NAV per Unit as of the close of business on the last Business Day of the calendar quarter immediately preceding the Subsequent Closing Date on which such Additional Member was admitted to the Company or such Increased Member increased its Commitment (as such NAV per Unit may be adjusted by the Managing Member in its reasonable judgment to reflect any distributions of Disposition Proceeds made to the Members subsequent to such last Business Day).

Units are withdrawn from the Company in accordance with Article XV of the Company Agreement. Each Unit withdrawn is valued at the NAV per Unit as of September 30 immediately preceding the applicable Withdrawal Date (the "Redemption Price"). The Manager may, in its reasonable discretion, adjust the Redemption Price to reflect any distributions of Disposition Proceeds to Members and certain expense adjustments incurred by the Company between September 30 and December 31 of the applicable withdrawal year. The Withdrawal Date is effective as of December 31 of the year in which a valid Redemption Notice is received.

During the years ended December 31, 2025 and 2024, transactions in Members' Units and Units outstanding at December 31, 2025 and 2024 were as follows:

	2025		2024
	Members' Units		Members' Units
Beginning Units	1,185,027.16	Beginning Units	1,197,229.08
Units issued	182,601.92	Units issued	-
Units withdrawn	(15,430.00)	Units withdrawn	(12,201.92)
Ending Units	1,352,199.08	Ending Units	1,185,027.16

(10) Financial Highlights

The following financial highlights are being presented in accordance with the requirements of ASC 946, *Financial Services – Investment Companies*.

The following represents the total rate of return ("ROR") of the Members of the Company:

Total ROR	2025	2024
Total ROR before Carried Interest allocation	10.93%	10.06%
Carried Interest allocation	(1.71)%	(1.82)%
Total ROR after Carried Interest allocation	9.22%	8.24%

AMERICAN RIVERS FUND, LLC
(A Limited Liability Company)

Notes to Financial Statements

Years Ended December 31, 2025 and 2024

Total ROR is calculated for the Company as a whole. Total ROR prior to the allocation of Carried Interest is computed based on the change in net assets resulting from operations, adjusted for the timing and amount of capital contributions made by and distributions and withdrawals made to Members during the period. When capital activity occurs within a reporting period, total ROR is calculated using adjusted net assets to reflect the interim impact of such transactions. An individual Member's ROR may vary based on the timing of their Unit transactions, as well as their applicable Management Fee rate.

The following represents the financial highlight ratios of the Members of the Company:

	2025	2024
	Members' NAV	Members' NAV
	per Unit	per Unit
Supplemental per Unit operating performance		
Net asset value, beginning of year	\$ 1,496.40	\$ 1,511.83
Net investment income	154.16	141.37
Net realized and unrealized gains	3.35	5.25
Total from investment operations	157.51	146.62
Distributions of Current Proceeds	(151.39)	(161.66)
Distributions of Disposition Proceeds	-	(0.39)
Net asset value, end of year	\$ 1,502.52	\$ 1,496.40
Ratios to average net assets:		
Operating expenses*	2.27%	2.51%
Carried Interest allocation	1.83%	1.96%
Total expenses	4.10%	4.47%
Net investment income	10.59%	9.61%

**Operating Expenses exclude the Management Fee Offset of \$9,852,962 and \$8,942,223 in 2025 and 2024, respectively.*

The ratios presented above, which exclude the Managing Member, are calculated for Members' NAV per Unit for the years ended December 31, 2025 and 2024, based upon the weighted-average quarterly Members' equity adjusted for contributions and withdrawals.

AMERICAN RIVERS FUND, LLC

(11) Subsequent Events

Management has evaluated events for possible recognition or disclosure in the financial statement through April 28, 2026, the date these financial statements were issued. Management has determined that, except for events as noted below, there were no additional material events that require recognition or disclosure in the financial statements through this date.

On January 16, 2026, the Company terminated the EWB line of credit and replaced it with a \$200 million Goldman Sachs line of credit, of which \$125 million is fully committed.

On March 31, 2026, the Company distributed approximately \$57.3 million to the Members.
