INDEPENDENT AUDITORS' REPORT

To the General Partner of
Era Ventures LP

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Era Ventures LP (the "Fund"), which comprise the statement of assets, liabilities and partners' capital, including the schedule of investments, as of December 31, 2024, and the related statements of operations, changes in partners' capital and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Era Ventures LP as of December 31, 2024, and the results of its operations, changes in its partners' capital and its cash flows for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

"EisnerAmper" is the brand name under which EisnerAmper LLP and Eisner Advisory Group LLC and its subsidiary entities provide professional services. EisnerAmper LLP and Eisner Advisory Group LLC are independently owned firms that practice in an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations and professional standards. EisnerAmper LLP is a licensed CPA firm that provides attest services, and Eisner Advisory Group LLC and its subsidiary entities provide tax and business consulting services. Eisner Advisory Group LLC and its subsidiary entities are not licensed CPA firms.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

The capital call due on April 8, 2024 was offset by \$7,875 of distributions.

Era Ventures LP
(a Delaware Limited Partnership)
Notes to Financial Statements
For the Year Ended December 31, 2024

1. ORGANIZATION AND PURPOSE

Era Ventures LP (the “Fund”) is a limited partnership formed under the laws of the State of Delaware for the purpose of making Portfolio Investments, as defined in the Amended and Restated Agreement of Limited Partnership of the Fund dated August 17, 2022, as amended from time to time (the “Agreement”).

Capitalized terms used herein and not otherwise defined will have the meaning set forth in the Agreement. To the extent that this and the other notes that follow describe or refer to the terms and provisions of the Agreement, they are intended as summaries only and are qualified in their entirety by reference to the Agreement itself.

The Fund was formed October 25, 2021 and commenced operations on August 17, 2022 (the “Initial Closing Date”). The Fund has a term of 10 years after the Initial Contribution Date, which occurred August 29, 2022, and is subject to earlier dissolution and termination upon the occurrence of certain events as described in the Agreement. The General Partner may extend the term of the Fund for up to two additional one-year periods, the second such extension shall require the consent of the LP Advisory Committee. Thereafter, any extension shall require the consent of the General Partner and a Majority in Interest of the Limited Partners. During 2024, the Agreement was amended to extend the final closing to September 30, 2024.

The general partner of the Fund is Era Ventures GP LLC (the “General Partner”).

Era Ventures Management LP (the “Management Company”), a Delaware limited partnership and an Affiliate of the General Partner, provides management and advisory services to the Fund.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation — The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) as detailed in the Financial Accounting Standards Board’s Accounting Standard Codification (“ASC”). The Fund is an investment company following the accounting and reporting guidance in ASC 946, Financial Services – Investment Companies.

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation — The Fund carries its investments at fair value. Fair value is an estimate of the exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (i.e., the exit price at the measurement date). Fair value measurements are not adjusted for transaction costs.

In determining fair value, the Fund uses various valuation approaches. A fair value hierarchy for inputs is used in measuring fair value, and is categorized into three levels to prioritize inputs as follows:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted market prices that are observable, either directly or indirectly, and reasonably available. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the Fund.
- Level 3 Unobservable inputs that reflect the assumptions that the General Partner develops based on available information about what market participants would use in valuing the asset or liability.

Era Ventures LP
(a Delaware Limited Partnership)
Notes to Financial Statements (continued)
For the Year Ended December 31, 2024

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation (continued) —

An asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Availability of observable inputs can vary and is affected by a variety of factors. The General Partner uses judgment in determining the fair value of assets and liabilities. Level 3 assets and liabilities involve greater judgment than Level 1 or Level 2 assets and liabilities.

The Fund's Portfolio Investments are generally restricted, encumbered, not actively traded nor intended for immediate sale. Such investments are valued at fair value as determined in good faith by the General Partner after consideration of all pertinent information, including available market prices, types of securities, marketability, restrictions on disposition, the effect of any encumbrances, current and projected financial position and operating results of the Portfolio Investments, and other appropriate information impacting the company and its industry.

Unobservable inputs are used to measure fair value to the extent that observable inputs are not available. Fair value of Level 3 investments is determined using valuation methodologies that consider a range of factors, including, but not limited to, the nature of the investment, market conditions, trading values on public exchanges for comparable securities, current and projected operating performance and financing transactions subsequent to the acquisition of the investments.

When a pricing model is used to value investments, inputs to the model are adjusted when changes to inputs and assumptions are corroborated by evidence such as transactions in similar instruments, completed or pending third-party transactions in the underlying investment or comparable entities, subsequent rounds of financing, recapitalizations and other transactions, offerings in the equity or debt capital markets, and changes in financial ratios or cash flows.

For positions that are not traded in active markets or are subject to transfer restrictions, valuations are adjusted to reflect illiquidity and/or non-transferability and such adjustments are generally based on available market information. In the absence of such evidence, management's best estimate is used.

The values assigned to the Fund's investments are based upon available information and do not necessarily represent amounts which might ultimately be realized, since such amounts depend on future circumstances and are not ultimately determined until the individual positions are liquidated. The estimated values could differ significantly had a ready market existed and these differences could be material.

Investment Transactions — The Fund records investment transactions on a trade-date basis. Realized gains and losses are recorded on a specific identification basis. Changes in unrealized gains and losses are included in the Statement of Operations.

Cash — Cash consists of operating cash. As of December 31, 2024, all cash is held at major financial institutions. The Fund keeps all of its cash with two banks. The account balances often exceed the FDIC insurance limit and in the event of the bank's insolvency, the recovery of cash may be limited.

Interest and Dividends — Interest is recorded as earned on the accrual basis and dividends are recognized when declared unless collection is deemed to be doubtful.

Income Taxes — The Fund is not required to pay income taxes on income, profits, or capital gains. Each Partner's applicable share of the Fund's taxable income is reported on the Partner's individual income tax returns in accordance with the laws of the applicable jurisdictions.

The General Partner is responsible for determining whether a tax position taken by the Fund is more likely than not to be sustained on the merits. The Fund has no material unrecognized tax benefits and has not recognized in these financial statements any interest or penalties related to income taxes.

Era Ventures LP
(a Delaware Limited Partnership)
Notes to Financial Statements (continued)
For the Year Ended December 31, 2024

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes (continued) —

Tax laws are complex and subject to different interpretations by the taxpayer and taxing authorities. Significant judgment is required when evaluating tax positions and related uncertainties. Future events such as changes in tax legislation could require a provision for income taxes and any such changes could significantly affect the amounts reported in the Statement of Operations.

Organizational Expenses and Syndication Costs— Organizational expenses are expensed as incurred and amounts in excess of \$1,500,000 will reduce management fees in accordance with the Agreement. Organizational expenses amounting to \$955,647 were incurred from inception through December 31, 2024. Syndication costs are recorded as a direct charge to Partners' capital accounts.

3. INVESTMENTS

The following are the Fund's investments owned by level within the fair value hierarchy as of December 31, 2024:

	Level 1	Level 2	Level 3	Total
Investments				
Preferred stock	\$ -	\$ -	\$ 45,090,375	\$ 45,090,375
Warrants	-	-	1,016,340	1,016,340
Membership interests	-	-	20,000	20,000
Total Investments	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 46,126,715</u>	<u>\$ 46,126,715</u>

For the year ended December 31, 2024, there were Level 3 investment purchases totaling \$20,001,780. There were no transfers into or out of Level 3 of the fair value hierarchy for assets measured at fair value for the year ended December 31, 2024.

The following table presents quantitative information about the significant unobservable inputs of the Fund's Level 3 investments as of December 31, 2024. The following table is not intended to be all-inclusive but rather to provide information on significant unobservable inputs and valuation techniques used by the Fund.

Investments	Fair Value	Valuation Technique	Unobservable Input	Range of Inputs
Preferred Stock	\$ 45,090,375	Recent transactions	N/A	N/A
Warrants	1,016,340	Recent transactions - backsolve	N/A	N/A
Membership Interests	20,000	Recent transactions	N/A	N/A
Total Investments	<u>\$ 46,126,715</u>			

Era Ventures LP
(a Delaware Limited Partnership)
Notes to Financial Statements (continued)
For the Year Ended December 31, 2024

4. CAPITAL COMMITMENTS AND CONTRIBUTIONS

Under the terms of the Agreement, the Limited Partners are committed to make aggregate contributions of \$85,000,000 (includes both affiliated and non-affiliated limited partners). The Fund had its final close on September 30, 2024 in which two Limited Partners with combined commitments of \$5,750,000 were admitted to the Fund. Under the terms of the Agreement, any additional Limited Partner admitted to the Fund shall be treated as a Limited Partner since commencement date. A Limited Partner admitted to the Fund after the Initial Contribution Date will pay to the Fund a late admission charge: an amount equal to the interest that would have been earned on the capital that such Limited Partner would have contributed to the Fund had the Limited Partner been admitted to the Fund on the Initial Contribution date at an annual rate of 8%. The late admission charge will be allocated amongst the Limited Partners who participated in prior closings. The General Partner is committed to make contributions of \$3,000,000, representing approximately 3.4% of the Fund's aggregate Capital Commitments of \$88,000,000. As of December 31, 2024, the Fund received capital contributions of \$54,707,295, representing 62.2% of Capital Commitments. As of December 31, 2024, the Fund's unfunded Commitment totaled \$33,292,705.

5. ALLOCATION OF NET INCOME AND NET LOSSES

Profit and loss for each fiscal year will generally be allocated among the Partners in a manner such that the Capital Account of each Partner, immediately after making such allocation, is, as nearly as possible, equal (proportionally) to the distributions that would be made to such Partner if the Fund were dissolved, its affairs wound up and its assets sold for cash equal to their respective book values, all liabilities satisfied in accordance with their terms (limited with respect to each non-recourse liability to the book value of the assets securing such liability), and the net assets of the Fund were distributed to the Partners in accordance with the Distributions section below (see Note 6).

As of December 31, 2024, items of gain, loss, income, and expense of the Fund were allocated among the Limited Partners and General Partner on a hypothetical liquidation basis in a manner consistent with the provisions set forth in the Agreement.

6. DISTRIBUTIONS

Any distribution of proceeds received from an investment will initially be allocated amongst the partners in proportion to each Partner's share of the investment. Distributions to the Limited Partners and the General Partner are further divided as follows:

- (i) First, 100% to the Limited Partners until the aggregate distributions to the Limited Partners equals to their aggregate capital contributions; and
- (ii) Thereafter, 80% to the Limited Partners and 20% to the General Partner ("Carried Interest").

As of and for the year ended December 31, 2024, no Carried Interest was allocated to the General Partner.

If after giving effect to all contributions, distributions and allocations provided for per the Agreement, the General Partner has received distributions of Carried Interest in respect of any Limited Partner and the cumulative distributions of Carried Interest in respect of such Limited Partner as of the applicable date less all amounts previously contributed by the General Partner with respect to such Limited Partner exceed 20% of the amount of the aggregate distributions made by the Fund in respect of such Limited Partner as of the applicable date that were taken into account, then the General Partner will contribute to the Fund, and the Fund will distribute to such Limited Partner, an amount out of the amounts received by the General Partner as Carried Interest distributions (the "General Partner Clawback Amount") equal to such excess amount and adjusted for all tax liabilities and payments of

Era Ventures LP
(a Delaware Limited Partnership)
Notes to Financial Statements (continued)
For the Year Ended December 31, 2024

6. DISTRIBUTIONS (continued)

the General Partner pursuant to the Agreement. As of December 31, 2024, there is no accrued General Partner Clawback Amount.

7. MANAGEMENT FEE

In consideration of the services provided by the Management Company, the Fund will pay a management fee to the Management Company. The management fee is payable quarterly in advance, commencing as of the Initial Contribution Date (August 29, 2022). The management fee is equal to the following amount:

- (i) 2.5% per annum of the aggregate Capital Commitments of the Limited Partners commencing as of the Initial Contribution Date to and including the first Fiscal Quarter in which the fifth anniversary date of the Initial Contribution Date; then
- (ii) Beginning with the first Fiscal Quarter following the First Step-Down Date, the annual management fee percentage shall be reduced by 0.5%; thereafter
- (iii) Beginning with the first Fiscal Quarter following the second anniversary of the First Step-Down Date, the annual management fee percentage shall be reduced by 0.2% per year but shall not be reduced below 1.0%.

The management fee payable by the Fund is reduced by the Fund's share of certain fees received by the Management Company and its Affiliates as set forth in the Agreement. The reduction is equal to the Limited Partners' pro rata share of 100% of the allocable cash fees received by the Management Company. For the year ended December 31, 2024, the management fee was not reduced by any allocable fees.

Capital contributions used to pay Organizational Expenses in excess of \$1,500,000 will also reduce the management fee. For the year ended December 31, 2024, the management fee was not reduced by Excess Organizational Expenses.

For the year ended December 31, 2024, the Fund incurred and paid management fees of \$2,317,584.

8. RELATED PARTY TRANSACTIONS

The members of the General Partner are present members, partners, directors, officers, employees and/or consultants of the Management Company. The General Partner and/or Management Company pay the expenses of providing their services to the Fund (such as compensation of their employees, rent, utilities, office expenses, etc.).

As of December 31, 2024, the Fund had a balance of \$136,007 due to the Management Company, for reimbursable expenses paid on behalf of the Fund by the Management Company, included in the Statement of Assets, Liabilities and Partners' Capital.

A member of the General Partner serves as a Director on the Board of Directors for several of the Portfolio Investments.

Era Ventures LP
(a Delaware Limited Partnership)
Notes to Financial Statements (continued)
For the Year Ended December 31, 2024

9. LINE OF CREDIT

The Fund has a demand revolving credit facility with a bank that allows access up to the lesser of 25% of Capital Commitments and \$5 million, which can be increased as specified per the loan agreement and matures on May 30, 2025. Interest accrues through the end of each calendar month and is payable monthly on the tenth day of the immediately following calendar month. Interest accrues on outstanding borrowings equal to the greater of the Daily Simple SOFR plus 3% with a floor rate of 5%.

For the year ended December 31, 2024, the Fund had four Drawdowns totaling \$12,000,000 and incurred interest of \$109,896, which was included in professional fees and other expenses on the Statement of Operations. As of December 31, 2024, there was no outstanding balance.

10. RISK FACTORS

The Fund's investment objectives are long-term and highly illiquid and there is no assurance that the Fund will achieve investment objectives including targeted returns. Due to the illiquidity of the investments, valuation of the assets may be difficult as there generally will be no established markets for these assets. All changes in market conditions will directly affect the net asset value of the Fund.

The Fund's investing activities expose it to various types of risk that are associated with the financial instruments and markets in which it invests. The significant types of financial risks to which the Fund is exposed include, but are not limited to, performance risk, liquidity risk, and other additional risks. Certain aspects of those risks are addressed below.

Performance Risk — Each of the Fund's investments carries performance risk, which encompasses the potential for both losses and gains and includes the financial performance of the investment, the health of the industry in which it operates, the health of its potential acquirers, and public market appetite for the sector in which it operates.

Liquidity Risk — Fund investments that are initially privately held have no readily available secondary market. Therefore, there is no assurance that the Fund will be able to realize liquidity.

Other Risks — Legal, tax and regulatory changes could occur during the duration of the Fund which may adversely affect the Fund. The Fund will be subject to a variety of litigation risks, particularly if one or more of its Portfolio Companies face financial or other difficulties during the term of the Fund.

11. INDEMNIFICATION

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties and which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. The Fund does not expect to suffer any material losses in connection with its contracts.

12. FINANCIAL HIGHLIGHTS

In accordance with calculation methodologies prescribed by GAAP, the following financial highlights are being disclosed for the year ended December 31, 2024. The financial highlights are calculated for the Limited Partners as a whole and exclude data for the General Partner. Calculation of these highlights on an individual Limited Partner basis may yield results that vary from those stated herein.

Era Ventures LP
(a Delaware Limited Partnership)
Notes to Financial Statements (continued)
For the Year Ended December 31, 2024

12. FINANCIAL HIGHLIGHTS (continued)

Ratios to Average Limited Partner Capital:

Net Investment Income/(Loss)	<u>(8.79) %</u>
Total Expenses	9.06 %
General Partner's Carried Interest	<u>- %</u>
Total Expenses and General Partner's Carried Interest	<u>9.06 %</u>

Internal Rate of Return

Through December 31, 2024	<u>(7.18) %</u>
Through December 31, 2023	<u>(11.88) %</u>

The ratios of net investment income / (loss) and expense to average Limited Partners' capital represent the Limited Partners' net investment income / (loss) and expense for the year ended December 31, 2024, included in the Statement of Operations, to Limited Partner weighted average partners' capital. The ratio of General Partner's Carried Interest to average Limited Partners' capital reflects the effect of the allocation of Carried Interest on Limited Partners' capital.

The Internal Rate of Return ("IRR") is calculated from inception and is net of all expenses and Carried Interest allocations to the General Partner. The IRR is computed based on the actual dates of Capital Contributions, distributions, and total partners' capital of the Limited Partners as of December 31, 2023 and December 31, 2024.

13. SUBSEQUENT EVENTS

In Q1 2025, Welcome Building Corporation initiated a financing round at a reduced valuation, reflecting continued operational challenges and a shift in business model. The round remains open as of the date of issuance, with a second close not yet completed. As of the report date, management is assessing the impact to the fair value of the investment and the reduction in the valuation from year-end.

On April 1, 2025, the Fund issued a net capital call of \$665,929 to return excess investment capital contributions, while simultaneously calling capital for management fees and partnership expenses, due on April 11, 2025. The capital call consisted of \$1,262,501 of called capital, and \$596,572 of excess investment contribution returns.

The General Partner has evaluated the impact of all subsequent events through April 25, 2025, which is the date that these financial statements were available to be issued, and has determined that there were no additional subsequent events requiring adjustment to or disclosure in the financial statements.
