2024: A Recap

Fund I Portfolio:

AlphaSense, LLC – On May 16, 2024, Fund I portfolio company AlphaSense raised a \$650 million Series E round and agreed to acquire Tegus Ltd for \$930 million. The round had participation from its largest existing investors, joined by new investors J.P. Morgan Growth Equity Partners, SoftBank, Blue Owl, and Alkeon Capital. While Centana did not participate in this financing, we are pleased with the continued strong performance and interest in the company, driven by the excitement around AI. This round was completed at approximately a 23% premium to the Series D round that closed in August 2023, bringing Fund I's total position to a 2.4x gross MOIC as of closing.

True Link Financial, Inc. – In August 2024, Huntington Bank made an approximate \$6 million strategic investment in True Link at a \$144 million pre-money valuation, and a portion of the proceeds were used to repurchase stock from investors, including Fund I, which received approximately \$1 million.

Fund II Portfolio:

Eventus Systems, Inc. – On January 5, 2024, Fund II completed a \$1.0 million follow-on investment in Eventus as part of a \$5.3 million financing. This investment brings the cost basis of Fund II's total investment in Eventus to \$18.7 million.

Headquartered in Stamford, Connecticut, Adroit is a cloud-based, API first, modular Execution Management Systems (EMS) for OTC securities (Fixed Income, FX, rates, swaps) that allows buy-side portfolio managers and traders to execute trades at better pricing and in a more automated and electronic fashion. Before this investment, the company was bootstrapped had demonstrated capital-efficient growth. We are working with Adroit to institutionalize its processes and expand its business.

Cayosoft, Inc. – On February 15, 2024, Fund II completed a \$22.5 million investment in Cayosoft, Inc., as the sole investor in their Series A round. We are excited by Cayosoft's product positioning, market potential, and experienced leadership team.

Sayari Labs, Inc. – On March 12, 2024, Fund II sold approximately 49% of its position in Sayari Labs to TPG in conjunction with its Series D funding. Since Centana's investment, the company has organically expanded ARR from \$10 million to over \$50 million and grown its commercial business to almost 40% of revenues. Fund II received approximately \$24.5 million in proceeds (with an additional \$0.8 million held in escrow), representing a gross MOIC and IRR of 2.1x and 32.9% on the portion that was sold. Centana will remain on the Board and continue working with its founders and the new board members. Subsequent to this transaction, the Partnership owns approximately 7% of the company on a fully diluted basis.

First Connect has demonstrated significant growth, amassing thousands of agents and 100+ carriers on the platform despite being underinvested behind due to Hippo's profitability constraints. We are excited by First Connect's digital-first approach to an age-old market access problem and its strong unit economics.
