REPORT OF THE GENERAL PARTNER

The General Partner, Altor Fund III GP Limited, presents its report and the Combined Audited Financial Statements (the “**Combined Financial Statements**”) of Altor Fund III (No. 1) Limited Partnership (“**LP1**”) and Altor Fund III (No. 2) Limited Partnership (“**LP2**”) (hereinafter defined as the “**Altor Fund III**” or the “**Fund**” or the “**Limited Partnerships**”) for the year ended 31 December 2024 which have been prepared in accordance with Generally Accepted Accounting Principles in the United States of America (“**US GAAP**”).

Directors of the General Partner

The following served on the Board of Directors of the General Partner during the year ended 31 December 2024 and subsequently:

Hans H. Klouman
Brendan T. McMahon
Heidi J. Birtwistle
Alan F. Ross (appointed 12 July 2024)

The Investment Committee

The Investment Advisor has established an Investment Committee made up of Harald Mix, Søren Johansen, Paal Weberg and Klas Johansson as permanent members and with one non-permanent member on a six monthly rotating basis. The General Counsel, Jonatan Lund Kirkhoff, attends meetings of the Investment Committee as representative of the General Partner. The Investment Committee normally meets every week. Its role is two-fold: namely to ensure that recommendations to the General Partner are in line with the investment strategy set out in the Limited Partnership Agreements; and to exercise ongoing monitoring of the Fund’s investments to ensure that the Fund’s strategy is realised.

The Advisory Committee

The General Partner has established an Advisory Committee made up of the following representatives:

Investor	Primary contact	Secondary contact
AlpInvest Partners	Piet-Hein den Blanken	Aleksandr Nekrasov
Goldman Sachs	Marc Boheim	Amy Jupe
Pantheon	Victor Mayer	Tamsin Seymour
Abu Dhabi Investment Council	Samar Sabbarini	Stefan Marelid
Skandia	Sofie Kulp-Tåg	Mattias Johansson
Patria	Merrick McKay	Alan Gauld

The Advisory Committee shall meet at least twice in each year and more frequently on an ad hoc basis as and when required. Its role is to review the progress of the Fund in meeting its investment objectives, investment valuations and any potential conflicts of interest. The Advisory Committee met on 13 February 2025 to review the portfolio company valuations.

General Partner’s responsibilities in respect of the Combined Financial Statements

The General Partner is responsible for the preparation of Combined Financial Statements for each financial year which give a true and fair view of the state of affairs of the Limited Partnerships and of the profit or loss of the Limited Partnerships for that year. In preparing these Combined Financial Statements, the General Partner is required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the Combined Financial Statements;
- assess the Limited Partnerships’ ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless liquidation is imminent.

The General Partner is responsible for keeping adequate accounting records that are sufficient to show and explain the Limited Partnerships’ transactions and disclose with reasonable accuracy at any time the financial position of the Limited Partnerships and enable them to ensure that the Combined Financial Statements comply with the Limited Partnership Agreements. They are responsible for such internal control as they determine is necessary to enable the preparation of the Combined Financial Statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Limited Partnerships and to prevent and detect fraud and other irregularities.

REPORT OF THE GENERAL PARTNER (continued)

The Investment Advisor

The General Partner has appointed Altor Equity Partners AB to provide it with investment advisory services in relation to the Fund. This includes, but is not restricted to:

- providing the General Partner with investment analysis;
- organising due diligence on targeted investments;
- preparing memoranda on purchases and sales of investments for submission to the Investment Committee for approval; and
- providing the General Partner with recommendations as to the purchase, sale, ongoing holding of and exit of investments.

Administration

Day to day responsibility for the administration of the Fund has been delegated to the Fund's Administrator, Aztec Financial Services (Jersey) Limited. Aztec Financial Services (Jersey) Limited is regulated by the Jersey Financial Services Commission under the Financial Services (Jersey) Law 1998, as amended.

Independent Auditor

KPMG Channel Islands Limited have indicated their willingness to continue in office and resolutions to re-appoint them as auditors to the Limited Partnerships and to authorise the General Partner to determine their remuneration will be proposed at the next Annual General Meetings of the Limited Partnerships.

Annual General Meeting

The Annual General Meetings will be held on 30 April 2025. The Notice of the Meetings appears on page 41 of these Combined Financial Statements.

Annual Investor Meeting

The Annual Investor Meeting will be held on 11 June 2025.

INDEPENDENT AUDITOR'S REPORT

Our opinion is unmodified

We have audited the combined financial statements of Altor Fund III (consisting of Altor Fund III (No. 1) Limited Partnership and Altor Fund III (No. 2) Limited Partnership) (the "Partnerships"), which comprise the combined statement of assets, liabilities and partners' capital and the combined schedule of portfolio investments as at 31 December 2024, the combined statement of changes in partners' capital, the combined statement of operations and the combined statement of cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements:

- give a true and fair view, in accordance with U.S. generally accepted accounting principles, of the financial position of the Partnerships as at 31 December 2024, and of the Partnerships' financial performance and cash flows for the year then ended; and
- have been prepared in accordance with the Amended and Restated Limited Partnership Agreement dated 23 April 2024.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)"), and the terms of our engagement letter. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Partnerships in accordance with, UK ethical requirements including FRC Ethical Standards. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

The general partner has prepared the financial statements on the going concern basis as it does not intend to liquidate the Partnerships or to cease their operations, and as they have concluded that the Partnerships' financial position means that this is realistic. It has also concluded that there are no material uncertainties that could have cast significant doubt over their ability to continue as a going concern for at least a year from the date of approval of the financial statements (the "going concern period").

In our evaluation of the general partner's conclusions, we considered the inherent risks to the Partnerships' business model and analysed how those risks might affect the Partnerships' financial resources or ability to continue operations over the going concern period.

Our conclusions based on this work:

- we consider that the general partner's use of the going concern basis of accounting in the preparation of the financial statements is appropriate; and
- we have not identified, and concur with the general partner's assessment that there is not, a material uncertainty related to events or conditions that, individually or collectively, may cast significant doubt on the Partnerships' ability to continue as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the Partnerships will continue in operation.

Fraud and breaches of laws and regulations – ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud ("fraud risks") we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- enquiring of management as to the Partnerships' policies and procedures to prevent and detect fraud as well as enquiring whether management have knowledge of any actual, suspected or alleged fraud;
- reading minutes of meetings of those charged with governance; and
- using analytical procedures to identify any unusual or unexpected relationships.

As required by auditing standards, we perform procedures to address the risk of management override of controls, in particular the risk that management may be in a position to make inappropriate accounting entries. On this audit we do not believe there is a fraud risk related to revenue recognition because the Partnerships' revenue streams are simple in nature with respect to accounting policy choice, and are easily verifiable to external data sources or agreements with little or no requirement for estimation from management. We did not identify any additional fraud risks.

INDEPENDENT AUDITOR'S REPORT (continued)

We performed procedures including:

- Identifying journal entries and other adjustments to test based on risk criteria and comparing any identified entries to supporting documentation; and
- incorporating an element of unpredictability in our audit procedures.

Identifying and responding to risks of material misstatement due to non-compliance with laws and regulations

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general sector experience and through discussion with management (as required by auditing standards), and discussed with management the policies and procedures regarding compliance with laws and regulations.

The Partnerships are subject to laws and regulations that directly affect the financial statements including financial reporting legislation and taxation legislation and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

The Partnerships are subject to other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of litigation or impacts on the Partnerships' ability to operate. We identified partnership law as being the area most likely to have such an effect. Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of management and inspection of regulatory and legal correspondence, if any. Therefore if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

Context of the ability of the audit to detect fraud or breaches of law or regulation

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remains a higher risk of non-detection of fraud, as this may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations.

Other information

The general partner is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Respective responsibilities

General Partner's responsibilities

As explained more fully in their statement set out on page 2, the general partner is responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Partnerships' ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless liquidation is imminent.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of this report and restrictions on its use by persons other than the Partnerships' partners, as a body

This report is made solely to the Partnerships' partners, as a body, in accordance with our terms of engagement as detailed in our letter of 30 January 2023. Our audit work has been undertaken so that we might state to the partners those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Partnerships and the partners, as a body, for our audit work, for this report, or for the opinions we have formed.

*1. The Fund holds Preferred Equity Certificates ("PECs") and Convertible Preferred Equity Certificates ("CPECs") in its investments in Rossignol and Nova Austral. The PECs and CPECs have been classified as preference shares within the Combined Schedule of Portfolio Investments as this asset class most closely resembles the terms and conditions of the PECs and CPECs.

*2. The proportion of capital owned presented is the direct undiluted ownership of all share classes in the company in which the dilution takes place in the investment structure.

NOTES TO THE COMBINED FINANCIAL STATEMENTS

for the year ended 31 December 2024

1. Fund Structure and Objective

The Fund's focus is on making principally unquoted equity and equity-related control investments in the middle market segment of the Nordic region. The Fund consists of two Limited Partnerships; Altor Fund III (No. 1) Limited Partnership and Altor Fund III (No. 2) Limited Partnership, both established in Jersey by Limited Partnership Agreements dated 21 August 2008, as varied on 18 May 2009, 16 April 2013, 1 October 2014, 27 March 2023 and 23 April 2024.

In addition to the Fund there is a co-investment vehicle, Altor Fund III (No. 3) Limited (the **"Co-Investment Vehicle"**). The Co-Investment Vehicle operates under the terms of a Co-investment Agreement dated 30 September 2009. Altor Fund III (No. 3) Limited was incorporated in Jersey on 6 August 2009.

The total commitment of the Fund at the date of the first and final closing on 24 August 2008 was €2,050,000,000 which was made up of €1,537,500,000 of base commitments and €512,500,000 of top up commitments. The Co-Investment Vehicle had agreed to co-invest a total commitment of €8,455,000 bringing the total commitments of the Fund and the Co-Investment Vehicle to €2,058,455,000.

On 1 October 2014, following receipt of Fund Special Consent and General Partner Consent, the LPA was amended to give the General Partner, with Advisory Committee consent, the authority to reduce the size of commitment of the Fund. Following consultation with the Advisory Committee, and receipt of its consent, the General Partner approved a reduction in top-up commitment with effect from 2 October 2014. Following the reduction, the total commitment of the Fund was €1,845,000,000 which was made up of base commitments of €1,537,500,000 and top-up commitments of €307,500,000. The commitment of the Co-Investment Vehicle was reduced accordingly to €7,609,500 bringing the total revised commitments of the Fund and the Co-Investment Vehicle to €1,852,609,500.

Following consultation with the Advisory Committee, and receipt of its consent on 12 November 2015, the General Partner approved a further reduction in top-up commitment with effect from 31 December 2015. Following the reduction, the total commitment of the Fund was €1,749,060,000 which was made up of base commitments of €1,537,500,000 and top-up commitments of €211,560,000. The commitment of the Co-Investment Vehicle was reduced accordingly to €7,213,806 bringing the total revised commitments of the Fund and the Co-Investment Vehicle to €1,756,273,806.

Following consultation with the Advisory Committee, and receipt of its consent, the General Partner approved a further reduction in top-up commitment with effect from 1 July 2019. Following the reduction, the total commitment of the Fund is €1,618,598,076 which is made up of base commitments of €1,537,500,000 and top-up commitments of €81,098,076. The commitment of the Co-Investment Vehicle has been reduced accordingly to €6,675,730 bringing the total revised commitments of the Fund and the Co-Investment Vehicle to €1,625,273,806.

The General Partner of the Fund is Altor Fund III GP Limited, a Jersey incorporated company with limited liability.

The Investment Advisor to the Fund is Altor Equity Partners AB, which also advises predecessor funds, Altor 2003 Fund and Altor Fund II.

Capitalised terms and expressions used in these Combined Financial Statements shall, unless the context otherwise require, bear the same meaning given to them in the Limited Partnership Agreements. These Combined Financial Statements reflect the financial position of LP1 and LP2 only and do not include the financial position of the Co-Investment Vehicle.

Duration of the Limited Partnerships

The original term of the Limited Partnerships was to 20 August 2021, a period of 13 years from the Final Closing Date. On 11 May 2021, the term of the Limited Partnerships was extended by two years to 21 August 2023 following approval by the General Partner. On 27 March 2023, the term of the Limited Partnerships has been extended by one year to 21 August 2024 following approval by way of Limited Partnership Consent and General Partner Consent. On 23 April 2024, the term of the Limited Partnerships were extended by another year to 21 August 2025 following approval by way of Limited Partnership Consent and General Partner Consent. On 20 March 2025, it was agreed by General Partner Consent that the Administrator could seek the Consent of the Limited Partners to extend the term of the Limited Partnerships by another year to 21 August 2026.

2. Significant Accounting Policies

Basis of accounting

The Combined Financial Statements have been prepared in accordance with Generally Accepted Accounting Principles in the United States of America (**"US GAAP"**).

The Fund meets the definition of an Investment Company under US GAAP and reports in accordance with the guidance of Accounting Standards Codification (ASC) Topic 946 "Financial Services Investment Companies".

Going concern

On 11 May 2021, the term of the Limited Partnerships was extended by two years to 21 August 2023 following approval by the General Partner. On 27 March 2023, the term of the Limited Partnerships was extended by one year to 21 August 2024 following approval by way of Limited Partnership Consent and General Partner Consent. On 23 April 2024, the term of the Limited Partnerships were extended by another year to 21 August 2025 following approval by way of Limited Partnership Consent and General Partner Consent. On 20 March 2025, the term of the Limited Partnerships were extended by another year to 21 August 2026 following approval by way of Limited Partnership Consent and General Partner Consent. The General Partner intends to further extend the life of the Fund in order to facilitate the orderly disposal of the Portfolio Companies and the subsequent winding up of the affairs of the Fund.

The emerging economic uncertainties followed by a high inflationary outlook within the region and also an ongoing geo-political situation are being closely monitored by the General Partner and its Investment Advisor of the Fund. While the overall impact of this on the economy is not yet apparent, the General Partner and its Investment Advisor do not underestimate the impact on the global financial markets. The Investment Advisor has performed a detailed impact assessment on each Portfolio Company. Further, the General Partner made an assessment of going concern, taking into account both the Fund's current performance and outlook, which considered the impact of the emerging economic uncertainties and ongoing geo-political situation, using information available to the date of issue of these Combined Financial Statements. Having performed the assessment on going concern, the General Partner considered it is appropriate to prepare the Combined Financial Statements of the Fund on a going concern basis. Furthermore, the General Partner is not aware of any material uncertainties that may cast a substantial doubt upon the Fund's ability to continue as a going concern.

The Fund meets its working capital requirements through drawdowns based on the level of commitments of each investor. Also, the Fund is allowed to recall certain distributions as and when needed as disclosed in Note 9.

Investments

Investments may consist of investments in shares, convertible notes, shareholder loan notes and warrants. The investments are carried at estimated fair value as determined by the General Partner after giving consideration to quoted prices, operating results, financial conditions, recent sales prices of issuers' securities and other pertinent information. Because of the inherent uncertainty in valuing unquoted investments, the estimated fair values may differ significantly from the values that would have been used had a readily available market for the securities existed and the differences could be material. The Limited Partnerships may also have risk associated with the concentration of investments in certain geographic areas and certain industries.

In accordance with the Limited Partnership Agreements, following the realisation of any investment within 12 months of its acquisition the amount returned may be required to be re-advanced by way of loan contributions or any amount distributed up to the acquisition cost realised. A realisation of any investment within 12 months of its acquisition without a corresponding dilution in the ownership percentage is treated as a return of capital and accounted for as a reduction to the cost of investment up to the extent of the acquisition cost. Any additional realisation is recorded in the Combined Statement of Operations.

PECs and CPECs have been classified as preference shares within the Combined Schedule of Portfolio Investments as this asset class most closely resembles the terms and conditions of the PECs and CPECs.

Non-consolidation

The General Partner is of the opinion that no investment held by the Limited Partnerships is controlled by the Limited Partners who do not exercise influence over the management of the underlying investments. Also, investments are made with the intention to resell for capital gain when a suitable exit can be arranged. Therefore, in the opinion of the General Partner, these investments are private equity investments and do not fall within the definition of either associated companies or subsidiary undertakings. The Limited Partnerships meet the definition of an Investment Company under US GAAP and as a result are exempt from the consolidation requirements of FASB ASC 810. Consequently, no account of the results of the companies in which the Limited Partnerships have invested is taken in these Combined Financial Statements.

Investment valuation

Investments are recognised on the date of completion of each transaction and are reported at fair value. The Fund adopted the requirements of Fair Value Measurement of FASB ASC 820 (the "Topic" or "ASC 820") on 1 January 2009. The Topic defines fair value as the amount that would be received to sell an asset in an orderly transaction between market participants at the measurement date (i.e. the exit price).

Investments are valued in accordance with the International Private Equity and Venture Capital Valuation Guidelines (revised December 2022), (the "International Guidelines"). In a case where there is any contradiction between the International Guidelines and the Topic, the guidance under the Topic shall prevail.

In valuing the investments the General Partner has not differed materially from the valuations that would have been disclosed under the International Guidelines.

NOTES TO THE COMBINED FINANCIAL STATEMENTS (continued)

2. Significant Accounting Policies (continued)

FASB ASC Fair Value Measurement

ASC 820 establishes a fair value hierarchy that prioritises the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The categorisation of an investment within the hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to the General Partner's perceived risk of that investment. The three levels of the fair value hierarchy under the Topic are as follows:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Limited Partnerships have the ability to access;
- Level 2 Observable inputs, other than quoted prices included in Level 1, that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active; and
- Level 3 Inputs that are unobservable. Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. An investment's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes 'observable' requires significant judgment by the General Partner. The General Partner considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, provided by multiple independent sources that are actively involved in the relevant market.

Transfers into and out of levels 1, 2 and 3

Transfers into and out of levels 1, 2 and 3 of the fair value hierarchy are recognised at the beginning of the financial year and are based on the latest audited fair value of portfolio investments.

General Partner's Profit Share

All capital and income available for distribution is distributed first to the General Partner in relation to its Profit Share (to be allocated against the Income and Capital Gain of each Limited Partnership for the Altor Fund III), at a rate of 1.5% of the total base commitments of all investors and 0.75% of the total top-up commitment drawn and invested in unrealised investments that have not been fully and permanently written off.

Following the Step Down Date as defined in the Limited Partnership Agreements, with effect from 2 January 2014 the General Partner's Profit Share ("GPPS") has been reduced to the aggregate of 1.5% of the cumulative acquisition cost of investments funded by drawn down base commitments as determined at the Step Down Date less the acquisition cost of investments that have been realised or permanently written off and 0.75% of top up commitments which have been drawn down and invested in unrealised investments which have not been fully and permanently written off. On 27 March 2023, Fund Special Consent was obtained from the Limited Partners to extend the life of the Limited Partnerships and the General Partner waived its entitlement to any GPPS that would otherwise be payable from 21 August 2023.

In the event of a partial realisation of an investment, the acquisition investment cost basis in relation to GPPS shall be deemed to have been reduced by the proportion of the equity share capital that has been realised or, in the case where the Limited Partnerships do not hold any equity share capital, by the proportion of the acquisition cost of the investment which has been realised. GPPS is accounted for on an accruals basis.

Fees received from Portfolio companies

The General Partner, the Investment Advisor or their associates may charge investee companies fees directly referable to the making or restructuring of investments, such as transaction fees, underwriting fees, abort fees and directors' and other fees. The GPPS will be reduced by 100 per cent of all transaction fees, underwriting fees, abort fees and directors' and other fees (net of value added or similar taxes) retained by the General Partner, the Investment Advisor or their associates.

Formation costs

Formation costs are costs incurred in the formation of the Fund (excluding placement agent's fees and value added tax thereon where applicable but including all reasonable out of pocket expenses including, but not limited to, travel and accommodation expenses, printing, legal, accounting, statutory and regulatory fees). These costs are charged to expenses when incurred and apportioned to each of the Limited Partnerships on a pro rata basis. Any excess over €1,500,000 is payable by the General Partner.

2. Significant Accounting Policies (continued)

Foreign currency translation

Foreign currency denominated assets and liabilities held by the Limited Partnerships at the year end are translated into Euro using the closing rates of foreign currency exchanges at the year end. The Limited Partnerships do not isolate that portion of the results of operations resulting from changes in foreign exchange rates or investments from fluctuations arising from change in the market value of investments held. Unrealised movement on revaluation of foreign currency investments are held within the movement in unrealised appreciation/(depreciation) on revaluation of investments. Translation of other assets and liabilities denominated in foreign currency are recorded as gains/(losses) on foreign currency transactions in the Combined Statement of Operations.

Transactions in a foreign currency are recorded at the exchange rate at the date of the respective transaction. Differences between the income and expenses accrued at the transaction date and the amounts received or paid resulting from foreign currency movements are included as gains/(losses) on foreign exchange in the Combined Statement of Operations.

Income/expense recognition

Interest income is recorded on an accruals basis, except where collection is in doubt. Interest income on convertible loan stock and shareholder loans is not shown separately, as in the opinion of the General Partner, it is more appropriate to include accrued income within the movement in unrealised appreciation of investments until the interest is received. Interest income has been recognised on this basis as the General Partner does not have a reasonable expectation about the timing and amount of cash flows expected to be collected. On receipt, the interest is reflected within investment income. Dividend income, if any, is recorded on the ex-dividend date. Expenses are recorded on an accruals basis as incurred.

Cash and cash equivalents

For purposes of the Combined Statement of Cash Flows, the Limited Partnerships consider cash on demand, deposit accounts and certificates of deposit purchased with an original maturity of three months or less to be cash equivalents.

Where significant foreign cash balances are held, the balance held in each currency is disclosed.

Income taxes

There is no provision for income tax in the Combined Financial Statements of the Fund as the Limited Partnerships are not subject to income tax. Each Limited Partner is individually liable for their own tax payments.

The Fund adopted the authoritative guidance on accounting for and disclosure of uncertainty in tax positions (FASB ASC 740) on 1 January 2009, which required the General Partner to determine whether a tax position of the Fund is more likely than not to be sustained upon examination, including resolution of any related appeals or investigations, based on the technical merits of the position. For tax positions meeting the more likely than not threshold, the tax amount recognised in the Combined Financial Statements is reduced by the largest benefit that has a greater than 50 per cent likelihood of being realised upon ultimate settlement with the relevant tax authority. The General Partner has completed an analysis of the tax positions of the Fund as at 31 December 2024 and has determined that there is no effect on the Combined Financial Statements from the Fund's adoption of this authoritative guidance.

The Limited Partnerships file tax returns as prescribed by the tax laws of the jurisdictions in which they operate. In the normal course of business, the Limited Partnerships are subject to examination by various jurisdictions, where applicable. As at the date of the Combined Statement of Assets, Liabilities and Partners' Capital, the General Partner has considered all tax years that remain subject to examination by each jurisdiction.

Use of estimates

The preparation of the Combined Financial Statements in accordance with US GAAP requires the General Partner to make estimates and assumptions that affect the fair value of investments, the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Combined Financial Statements and the reported amount of income and expenses during the year. Actual results could differ from those estimates.

In the normal course of their operations, the Limited Partnerships enter into contracts that contain a variety of representations and warranties which provide general indemnifications. The Limited Partnerships' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Limited Partnerships that have not yet occurred. However, based on experience, the General Partner expects the risk of loss to be remote.

Distributions

Income may be distributed annually provided that income may be retained and applied for the purpose of making follow-on investments. All cash proceeds from the realisation of investments available for distribution shall be distributed as soon as practicable and in any event within 90 days from such realisation after payment of or making appropriate provision for expenses of the Limited Partnerships.

NOTES TO THE COMBINED FINANCIAL STATEMENTS (continued)

for the year ended 31 December 2024

3. Financial Risk Management

In the normal course of business, the Limited Partnerships hold various financial instruments and enter into financial transactions with risk of potential loss due to changes in the market (market risk) or failure of the other party to honor the transaction (credit risk).

Market risk is the potential loss the Limited Partnerships may incur as a result of changes in the fair value of a particular instrument due to market changes. The Limited Partnerships manage market risk by establishing limits as to the types and degrees of risk that may be undertaken. In addition, the Limited Partnerships monitor the position, concentration and exposure to significant market events.

Currency risk arises from the possibility that fluctuations in foreign exchange rates will affect the value of financial instruments, including foreign currency contracts.

Credit risk is the possibility that a loss may occur from the failure of a counterparty to make payments according to the terms of a contract. The Limited Partnerships' exposure to credit risk at any point in time is limited to the amounts recorded as assets on the Combined Statement of Assets, Liabilities and Partners' Capital. The Limited Partnerships attempt to control their credit exposure to counterparties by monitoring counterparty credit ratings, diversifying across multiple counterparties and, where possible, utilising periodic settlement and bi-lateral collateral arrangements.

Liquidity risk is the risk that the Limited Partnerships will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from an inability to sell a financial asset quickly at its fair value. The Limited Partnerships' financial assets include investments in unquoted investment companies which may not be readily realisable. The current economic conditions create uncertainty over the liquidity of the Limited Partners and their ability to pay drawdowns for investments and fees as they are due. This particular liquidity risk is mitigated by the fact that Limited Partners are bound by the terms of the Limited Partnership Agreements to pay outstanding commitments.

4. Partners' Capital (continued)

Base loan commitments are due upon not less than 10 business days notice by the General Partner, in tranches of such amounts as the General Partner may require for the purpose of making investments and meeting the Limited Partnerships' ongoing operating costs. No interest shall be paid or payable by the Limited Partnerships upon any loans advanced to the Limited Partnerships by the Limited Partners. Such loans shall not constitute a debt due and payable by the Limited Partnerships, but shall be taken into account for the purposes of allocating assets of the Limited Partnerships to the Limited Partners.

Top-up commitments may be drawn on the same terms as base commitments but their use is restricted to the following:

- funding of follow-on investments;
- assisting with the making of larger investments beyond 12.5% of total base commitments; and
- investments subject to a listing acquired other than with a view to take private.

With effect from 1 January 2014, the net amount of €30,888,311 contributed for the investment in Eltek ASA was transferred from base contribution to top-up contribution.

On 2 October 2014, following receipt of consent from the Advisory Committee, the General Partner approved a reduction in top-up commitment from €500,000,000 to €300,000,000 for the Limited Partners and €12,500,000 to €7,500,000 for the General Partner. On 31 December 2015, a further reduction in top-up commitment was approved from €300,000,000 to €206,400,000 for the Limited Partners and €7,500,000 to €5,160,000 for the General Partner. On 1 July 2019, a further reduction in top-up commitment was approved from €206,400,000 to €79,120,074 for the Limited Partners and €5,160,000 to €1,978,002 for the General Partner.

Allocation of profits and losses

Allocations of income, capital gains and losses, fees, expenses, assets and liabilities are made to the relevant accounts of the Limited Partners and adjustments are made from time to time to ensure the balances of the Limited Partners' accounts reflect their eligibility to receive future distributions. The General Partner's Profit Share is to be allocated against the income and capital gain of each Limited Partnership for the year.

6. FASB ASC Fair Value Measurement

As at 31 December 2024, all investments of Limited Partnerships with the exception of SATS have been classified within Level 3 as they have unobservable inputs, as they reflect the General Partner's own judgment over the assumptions that market participants use to make valuation decisions, developed based on the best available information in the circumstances, as they trade infrequently or not at all. They may also include adjustments for qualitative factors in order to arrive at an estimated fair value. Level 3 investments include common and preferred equity securities, corporate debt, warrants, and other privately issued securities.

The General Partner, in accordance with the Limited Partnership Agreements, calculates the fair values of all investments held by the Limited Partnerships using one of the methodologies below.

Fair value is calculated as follows:

i) If a quoted market price is not available for an investment, the General Partner estimates the investment's fair value with reference to the International Private Equity and Venture Capital Valuation Guidelines. The General Partner's valuation is based on a comparable company's EBITDA/EBITA, EBIT earnings or P/E multiple, against the latest available financial information. Comparable company multiple means appropriate multiples for quoted companies, comparable in business activities and size to the investee company. The valuation methodology includes fundamental analysis that evaluates points of difference between the investee and its comparable companies as well as factors such as the investee company's performance, growth potential, changes in financial ratios or cash flows, recapitalisation and other transactions across the capital structure to ensure that there are no material factors which would impact the earnings multiple used. The multiple is then adjusted accordingly. The General Partner also considers the original transaction price, recent transactions in the same industry, completed or pending third-party transactions and other valuation methodologies deemed applicable and appropriate as part of its valuation process.

ii) Quoted investments shall be valued by the General Partner based on closing price, or if no sale occurred on such date, at the last 'bid' price thereon as of the last day of such fiscal quarter or year as applicable.

The following table presents the investments carried on the Combined Statement of Assets, Liabilities and Partners' Capital by level within the fair value hierarchy as at 31 December 2024.

* Drawdown 1, Drawdown 2 and the partial return of Drawdown 2 were paid at the relevant date by non-ERISA Limited Partners. Following the first investment purchase by the Fund a catch up call was made from the ERISA Limited Partners to bring them into line with non-ERISA Limited Partners. The gross drawdown amounts following the ERISA catch up call on 5 June 2009 were: Drawdown 1 €23,062,500, Drawdown 2 €100,000,000 and partial return of Drawdown 2 €32,000,000.

In accordance with the Limited Partnership Agreements, proceeds of distributions are available to be recalled up to the value of monies previously called for and used to pay for Limited Partnership expenses and GPPS. The General Partner anticipates it is possible that such monies may be required for follow-on investments. As of 31 December 2024, €269,097,271 (2023: €258,328,246) of distributions made to date were available for recall.

In July 2024, the litigation relating to the prospective liability in connection with the IPO, and the liability in respect of disclosure requirements in time leading up to the bankruptcy of OW Bunker A/S has been settled. As part of the settlement, Altor Fund II was required to pay an amount of €60,522,000 (the "OWB Settlement"). The Fund contributed towards the OWB Settlement amounting to €30,136,704. The rationale for the Fund's contribution is that the Fund was able to gain full flexibility in exiting its position in the Carnegie investment (which was the main commercial driver behind entering into a settlement solution) as the settlement releases Carnegie from the OWB litigation processes. The amount paid is included as legal and professional fees project fees in the Combined Statement of Operations.

14. Financial Highlights (continued)

	LP1 €	LP2 €	2024 Combined €	2023 Combined €
Multiple of cost of Altor Fund III investments	3.6x	3.6x	3.6x	3.5x

	LP1 €	LP2 €	2024 Combined €	2023 Combined €	2022 Combined €
Internal Rate of Return of Altor Fund III	17.22%	17.22%	17.22%	17.31%	17.46%

In accordance with the Limited Partnership Agreements the annual internal rate of return is calculated on the basis that each of the cash flows is regarded as arising at the end of the calendar month in which the cash flow in question occurs or is deemed to occur; and the rate of return is treated as compounded annually at the end of each calendar year.

15. Subsequent Events

On 19 March 2025, the Fund made a distribution in the amount of €697,469,016 (LP1/LP2) from the exit proceeds of the successful divestment of Carnegie, further proceeds from SATS and Meltwater.

The General Partner has evaluated all subsequent transactions and events after 31 December 2024 up to the date of the approval of the Combined Financial Statements and no additional items require disclosure or adjustment in the Combined Financial Statements.

EBITA

Comments

During 2018-2021A, CWW grew EBITA at a CAGR of 17%, and topline at an 8% CAGR, thus expanding margins from 22% to 28%. 2022-23 were turbulent years for CWW, with revenues decreasing 20% from 2021A to 2023A, driven by lower AuM, which in turn was driven by broader performance of equity markets and negative flows.

Improved performance in 2024, with AuM increasing over 11% YoY driven by good fund performance and net flows. Solid AuM development translated into 8% revenue growth. EBITA margins improved from 17% to 18% on the back of good operating leverage.

2025 forecast assumes continued AuM growth of ~11% YoY and 3% revenue growth due to product mix driving slightly lower net mgmt fee margins and lower forecasted brokerage fees. Cost base for 2025 estimated to be at 2024 levels which is expected to translate in a margin uplift of ca. 1 p.p.

EBITA note: Operating profit after profit sharing

AuM Development (EURbn)

A fixed EUR/SEK FX rate of 11.4426 per December 31, 2024 is applied to all trading development figures for comparability.

Comments

CWW's AuM grew by ca. EUR 2bn during 2024, driven by both positive market momentum and net flows on the back of successful US expansion.

Comparables note: Comps per 31 Dec 2024. Haarslev financials: Environment segment excluded in 2019 and 2020. FFI segment excluded in 2020. Both segments are discontinued from 2021 and onwards

Business Description

Haarslev was founded in 1973 and is today the clear global market leader in rendering, fish, and food processing equipment (65%) and spare parts (35%) with >10-12% global market share and 2x the size of the closest competitor

The rendering and fish processing products (crushers, presses, evaporators, hydrolyzers, driers etc.) are mainly used for handling of organic waste in the slaughtering industry including all segments of poultry and red meat, but also in the production of fish meal and oil

Haarslev employs approx. 1,000 people with sales offices/representation in all major markets and production in Denmark, Spain, China, Brazil, NZ, and Germany, and HQ in Hørslev in Denmark

The company's products and services play a key role in preserving and efficiently utilizing scarce global resources

Investment Thesis

Market:

- Rendering equipment is an attractive long-term growth industry supported by strong macro trends and emerging market potential, incl. increasing meat consumption, a trend towards consolidation and industrialization in the slaughtering and rendering industries, regulatory push towards food self-sufficiency and more environmentally sound by-product disposal
- Rendering industry is small, highly fragmented and niche with emerging consolidation where the competitive intensity is low and with high barriers to entry

Haarslev:

- Industry-leading player with unique global footprint and a long-term sustainable position in rendering and fish processing
- Attractive growth upsides in Environment and Biofuel segment where its equipment is also applied
- Value creation agenda includes more sophisticated pricing, increased focus on after sales, improved sourcing and further leveraging of low cost manufacturing base in China
- M&A opportunities to solidify footprint in key segments and accelerate growth in adjacent segments

Progress to Date

Retake plan in execution;

- Organizational upgrades completed with 3/4 regional GMs replaced
- Improved supply chain planning and execution in main DK manufacturing site
- Implementation of new ERP system in DK
- Execution underway and tracking in focused retake program
- Significant upgrade to operational routines, policies, and processes
- Operations Committee launched in 2020
- Improved regional financial reporting and governance model established
- Optimization add-on CORE A/S consolidated from Jan-22
- New CEO from Jun-22 to accelerate commercial value levers, building on optimized operational platform
- Execute cost out program including rightsizing the organization (implemented)
- Wind down non-core Environment and FFI businesses (complete)
- Legal settlement with former CEO, Claus Østergaard, concluded with transfer of his shares to Haarslev (treasury shares) positively impacting Altor ownership

Business Description

Rossignol Group is the world's #1 player in ski equipment with six leading brands across five distinct product categories: Rossignol and Dynastar skis, Look bindings, Lange boots, Kerma poles and Risport high-end figure skates.

Founded by Abel Rossignol in 1907, Rossignol employs some 1,280 people today.

The company is headquartered in France, with sales offices/representation in major markets and manufacturing plants in France, Spain and Italy.

Rossignol is also present in the bicycle market through its own Rossignol Bikes, and in the apparel market through Dale of Norway (acquired Q4 2017) and Woolland (Q1 2020).

Investment Thesis

- After having turned the corner on Helly Hansen, we started to look for other brands where we might do a similar restructuring journey, and identified Rossignol as the most attractive opportunity. It has many of the same challenges and opportunities we saw in Helly Hansen, but also allows us to leverage the learning from rebuilding Navico's supply chain.
- We have stayed in touch with the CEO and owners over the last two years, and have established a strong working relationship with the management – which has strengthened further during the due diligence.
- The EUR 1.7 billion (EUR 3.4 billion end-user) alpine hardgoods market has experienced a decline historically, but has stabilized and is expected to increase on average by ~1% annually.
- Rossignol has a very strong brand portfolio and superior brand preference that is far exceeding current market share. The overarching investment thesis is to build on current momentum (10% increase in order intake for 2013) and win back some of Rossignol's natural market share in hard goods (especially continue momentum in Alpine boots and Nordic).
- In addition, leveraging our Helly Hansen experience, we plan to rebuild a full winter sports apparel line under the Rossignol brand. Rossignol had EUR 32 million in apparel sales in 2006, but the apparel rights were sold off in the difficult years, and bought back last year. We will fund and grow the business, while improving gross margin using the same sourcing partner as Helly Hansen.
- We will also explore M&A opportunities to decrease dependency on the winter season.
- The value creation agenda should enable Rossignol to close the profitability gap to Amer (10% EBIT target) and Jarden.

Progress to Date

- Re-visit of three-year plan during 22 to reflect continued market rebound post-Covid-19, improved cost base, and correspondingly improved cash generation

Focus moving forward:

- Continue to regain hard goods market share through Rossignol's strong product portfolio and brand equity
- Conduct operational improvements through manufacturing footprint revamp and SG&A review
- Continue exploring additional M&A opportunities to decrease dependency on the winter season
- Reduce capital employed through improving efficiency in NWC
- Increase D2C penetration in Apparel
- Improve cash generation in core business
- Continue apparel growth with increased e-com penetration
- Deliver on SG&A efficiency

Analysis of Trading Development

Comments

FY21A and FY22 were adversely impacted by Covid 19 and a reduction in tourism to ski destinations.

FY23 saw demand and operations return to normal with a FY23 EBITDA 7% ahead of budget driven by outperformance in winter sports equipment sales, and outperformance on gross margin and SG&A.

FY24A landing below budget amid challenging weather conditions and muted consumer spending.

FY25B is expected to be comparable to FY24A, with marginal decline in winter sports equipment but continued growth and margin expansion in apparel.

Trading and capital structure note: Apparel included as royalty income FY12 and earlier. Rossignol EBITDA and EBITA net of expenses tied to headquarters lease (HQ lease treated as operational lease).

Comments

In Q2 2020, Rossignol entered into a 45 MEUR loan with a consortium of French banks guaranteed by the French state to secure financing throughout Covid19. The facilities were further increased with 17 MEUR in Q2 2021.

An agreement for WC financing (Collector) in Europe closed in Q1 2017. The structure offers significantly higher flexibility at an attractive cost. The Collector facility has been renewed in H1 2022 to support Rossignol in meeting the strong market demand. Dale and Woolland were refinanced in 2024 at attractive terms.

Rossignol has had a long-time ESG effort is centered on 3 key objectives:

- Commitment to lowering carbon footprint by 30%
- Commitment to reducing waste by 40%
- Taking action to continually improve working conditions and quality of life for our employees and partners.

Key improvements during recent years are i) change to responsible down, wool and leather raw materials in sourcing, ii) stopping use of animal fur and iii) increased use of recycled materials.

Rossignol has completed all relevant SBTi milestones ahead of plan with validation period by SBTi having been kicked off in late March

- In July 2024, SBTi has validated Rossignol's near-term science-based greenhouse gas emissions reduction target

- Rossignol commits to reduce absolute scope 1 and 2 GHG emissions 46.74% by FY2030 from a FY2019 base year and to reduce absolute scope 3 GHG emissions 28.5% by 2030

- With these commitments Rossignol is pursuing a global reduction of 30% of CO2 footprint by 2030
