Report of independent auditors

To the General Partner of Sequoia Capital U.S. Growth Fund VI, L.P.

Opinion

We have audited the accompanying financial statements of Sequoia Capital U.S. Growth Fund VI, L.P. (the "Partnership"), which comprise the statement of assets, liabilities and partners' capital, including the condensed schedule of portfolio investments, as of December 31, 2025, and the related statements of operations, of changes in partners' capital, and of cash flows for the year then ended, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Partnership as of December 31, 2025, and the results of its operations, changes in its partners' capital, and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We are required to be independent of the Partnership and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Partnership's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Partnership's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Partnership's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other information

Management is responsible for the other information included in the annual report. The other information comprises the unaudited financial statements as of December 31, 2025 as included in the quarterly report, but does not include the financial statements and our auditors' report thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Sequoia Capital U.S. Growth Fund VI, L.P.

(a Cayman Islands exempted limited partnership)

Notes to Financial Statements

December 31, 2025

(In United States Dollars "\$")

1. Organization

Sequoia Capital U.S. Growth Fund VI, L.P., a Cayman Islands exempted limited partnership (the "Partnership"), was formed among SC U.S. Growth VI Management, L.P., a Cayman Islands exempted limited partnership as the General Partner and a number of Limited Partners for the purpose of making venture capital investments in later stage companies, and is an investment company following the accounting standard codification ("ASC") 946, Financial Services—Investment Companies. The term of the Partnership commenced on April 3, 2014 and extends to April 3, 2026, unless extended or terminated as provided for in the Partnership Agreement.

2. Accounting Policies

The significant accounting policies of the Partnership are as follows:

- a. The Partnership uses the accrual method of accounting for financial reporting purposes.
- b. Organization costs are costs incurred in the formation of the Partnership. These costs are charged to expense when incurred. Syndication costs consist of costs incurred in connection with the syndication of the Limited Partners' interest. These costs are reflected as a reduction of Partners' capital.
- c. Realized gains or losses on investments represent the difference between the original cost of the securities on an identified cost basis and the related market price on the sale or distribution date. They include the original cost of investments written-off, if any. When investments are sold or distributed to the partners, gains or losses are classified as realized. The differences between the original cost and the estimated fair value of investments owned at the end of the period represent unrealized appreciation or depreciation. Escrow receivable is comprised of proceeds from sales of certain investments that are held as collateral for potential unknown outstanding liabilities which existed prior to the date of the sale. Provided that no previously existing but unknown liabilities emerge, these funds are expected to be received by the final escrow release date.
- d. In general, federal and state income tax regulations require that the income or loss of the Partnership be included in the tax returns of the partners. However, in certain circumstances the Partnership may be required to pay income taxes to a state or foreign country.
- e. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the General Partner to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income (loss), unrealized appreciation (depreciation) and expenses during the reporting period. Actual results could differ from those estimates.
- f. In accordance with the authoritative guidance on fair value measurements and disclosures under GAAP, the Partnership discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to valuations based upon unobservable inputs that are significant to the valuation (Level 3 measurements). The guidance establishes three levels of the fair value hierarchy as follows:

Sequoia Capital U.S. Growth Fund VI, L.P.

(a Cayman Islands exempted limited partnership)

Notes to Financial Statements

December 31, 2025

(In United States Dollars "\$")

- Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Partnership has the ability to access at the measurement date;
- Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active;
- Level 3 Inputs that are unobservable.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics and other factors (e.g., LTM revenue multiple, NTM revenue multiple, discount for lack of marketability, estimated time to exit, risk-free interest rate). An investment's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The General Partner's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment. The General Partner considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, provided by multiple, independent sources that are actively involved in the relevant market. The categorization of an investment within the hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to the General Partner's perceived risk of that investment.

Level 3 investments include common and preferred equity securities, warrants and other privately issued securities. When observable prices are not available for these securities, the General Partner uses one or more valuation techniques. These techniques mainly consist of market adjusted option pricing model and market approach. Within Level 3, the use of the market approach generally consists of using comparable market transaction multiples and/or comparable trading multiples. Management applies comparable trading multiples where such comparable multiples are available and appropriate.

Cash Equivalents

Cash equivalents are classified within Level 1 of the fair value hierarchy because they are valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency.

Publicly Held Securities – Common Shares

Publicly held equity investments that are traded on an active exchange are valued at the quoted market price based on the last sale price on the measurement date. Quoted market prices are classified as a Level 1 input in the fair value hierarchy under ASC 820, *Fair Value Measurements and Disclosures*. If an active market does not exist for such publicly held equity investments, alternate valuation models using Level 2 or Level 3 inputs may be used to determine fair value. Investments may be classified as Level 2 when market information is available, yet the investment is not traded in an active market and/or the investment is subject to transfer restrictions.

Privately Held Securities – Common Shares, Preferred Shares, Equity Interests, Warrants, Notes and Others

Investments in private securities are not publicly traded, and are carried at their estimated fair values. The fair values of private security investments are determined by reference to projected revenues, net earnings, EBITDA, public market or private transactions, valuations for comparable companies and other measures which, in many cases, are unaudited at the time received.

Sequoia Capital U.S. Growth Fund VI, L.P.

(a Cayman Islands exempted limited partnership)

Notes to Financial Statements

December 31, 2025

(In United States Dollars "\$")

Valuations may be derived by reference to observable valuation measures for comparable companies or transactions (e.g., multiplying a key performance metric of the investee company such as revenue or EBITDA by a relevant valuation multiple observed in the range of comparable companies or transactions), adjusted by management for differences between the investment and the referenced comparables, and in some instances by reference to option pricing models or other similar methods. Private security investments may also be valued at cost for a period of time after an acquisition as the best indicator of fair value. Due to the inherent uncertainty of the valuation process, the General Partner's estimate of fair value may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material to the financial statements.

The following table presents the financial instruments carried on the Statement of Assets, Liabilities and Partners' Capital by level within the valuation hierarchy as of December 31, 2025:

Assets at Fair Value				
	Level 1	Level 2	Level 3	Total
Money market funds	\$ 14,399,787	\$ -	\$ -	\$ 14,399,787
Total cash equivalents	\$ 14,399,787	\$ -	\$ -	\$ 14,399,787
Privately held common shares	\$ -	\$ -	\$ 8,327,032	\$ 8,327,032
Privately held preferred shares	-	-	137,786,701	137,786,701
Total investments	\$ -	\$ -	\$ 146,113,733	\$ 146,113,733

The following table includes the activity for the year ended December 31, 2025 for investments classified within Level 3. The classification of an investment within Level 3 is based upon the significance of the unobservable inputs to the overall fair value measurement.

Level 3 Activity				
	Privately Held Common Shares	Privately Held Preferred Shares	Warrants, Notes and Other	Total
Purchases	\$ -	\$ 195,041	\$ -	\$ 195,041
Transfers out of Level 3	-	-	-	-
Transfers into Level 3	-	-	-	-

The Partnership's policy is to recognize transfers in and transfers out as of the beginning of the reporting period.

Sequoia Capital U.S. Growth Fund VI, L.P.

(a Cayman Islands exempted limited partnership)

Notes to Financial Statements

December 31, 2025

(In United States Dollars “\$”)

The following table summarizes the quantitative inputs and assumptions used for items categorized in Level 3 of the fair value hierarchy as of December 31, 2025. The table below excludes investments for which fair value is not based on quantitative unobservable inputs developed by the General Partner such as investments for which fair value is determined by net asset values or recent, pending or expected transactions without adjustment.

Investments	Fair Value at December 31, 2025	Valuation Technique	Unobservable Input	Minimum	Maximum
Preferred Stock	\$ 137,591,660	Common Stock	LTM Revenue Multiple	3.4	7.5
		Equivalent/ Market Comparable	Discount for Lack of Marketability (DLOM)	5.2%	17.9%
		Companies/ Option Pricing Models/ Post Money	Volatility	44.5%	59.7%
			Risk-Free Interest Rate	3.7%	4.3%
			Estimated Time To Exit (in Years)	2.0	7.6
Common Stock	\$ 7,522,716		LTM Revenue Multiple	3.4	4.0
		Market Comparable	Discount for Lack of Marketability (DLOM)	13.7%	17.9%
		Companies/ Option Pricing Models	Volatility	44.5%	59.7%
			Risk-Free Interest Rate	3.7%	3.7%
			Estimated Time To Exit (in Years)	2.0	3.8

3. Recent Accounting Pronouncements

In December 2023, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2023-09—Income Taxes (Topic 740): Improvements to Income Tax Disclosures. ASU 2023-09 enhances the transparency and decision usefulness of income tax disclosures for income tax expense and income taxes paid. ASU 2023-09 will become effective for the Partnership beginning January 1, 2026. The Partnership is in the process of assessing the impact of adopting ASU 2023-09 to the Partnership’s financial statements.

4. Risks

While the General Partner believes its valuation methods are appropriate and consistent with those used by other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. Those estimated values may differ significantly from the values that would have been used had a readily available market for such investments existed, or had such investments been liquidated, and these differences could be material to the financial statements. Most of the portfolio companies in which the Partnership expects to make investments will initially be privately held. As a result, there will be no readily available secondary market for the Partnership’s interests in such portfolio companies, and those interests will be subject to legal restrictions on transfer. Therefore, there is no assurance that the Partnership will be able to realize liquidity for such investments in a timely manner, if at all. The Partnership may also have risk associated with its concentration of investments in certain geographic areas and certain industries.

The Partnership intends to invest in portfolio companies that may be subject to extensive governmental regulations and oversight with respect to their business activities. The failure to comply with applicable regulations, obtain applicable regulatory approvals, or maintain those approvals so obtained, may subject the applicable portfolio company to civil penalties, suspension or withdrawal of any regulatory approval obtained, product recalls and seizures, injunctions, operating restrictions and criminal prosecutions and penalties, which could, individually or in the aggregate, have a material adverse effect on the Partnership’s investment in such company.

Sequoia Capital U.S. Growth Fund VI, L.P.

(a Cayman Islands exempted limited partnership)

Notes to Financial Statements

December 31, 2025

(In United States Dollars "\$")

Market Risk

Market risk encompasses the potential for both losses and gains and includes price risk, currency risk and interest rate risk.

5. Cash and Cash Equivalents

Cash and cash equivalents consist of cash, money market funds, or highly liquid investments with original maturities of three months or less at the date of purchase. The Partnership's cash and cash equivalents at December 31, 2025 are on deposit with several major U.S. banks; these deposits may be in excess of insured limits. At times, idle cash may be swept into money market funds.

6. Notes Receivable from General Partner

Contributions in the form of notes receivable related to in-kind distributions in the amount of \$37,699,281 are included in partners' capital at December 31, 2025. These notes do not bear any interest and are generally repayable upon the (i) date on which the General Partner disposes of the associated asset, (ii) dissolution of the partnership, or (iii) at an earlier date determined by GP discretion.

7. Allocation of Profits and Losses

Realized profits and losses and unrealized appreciation and depreciation are allocated 30% to the General Partner and 70% among all partners in proportion to their respective capital subscriptions immediately prior to the date of such allocation. On May 27, 2021, the General Partner made an in-kind distribution to the General Partner of the carried interest portion of certain portfolio company interests. Subsequent to this distribution, the General Partner will no longer accrue any carried interest with respect to these previously held portfolio company interests and realized profits and losses and unrealized appreciation and depreciation are allocated among all partners in proportion to their respective capital subscriptions.

If an allocation to the capital account of the General Partner of net realized loss or net losses deemed realized would cause the total amount of such losses allocated to the capital account to exceed the cumulative total of net realized gains and net gains deemed realized allocated to the capital account of the General Partner, then any such excess loss shall first be allocated to the partners in proportion to their respective subscribed capital until the respective subscribed capital accounts of the Limited Partners are reduced to zero, and thereafter to the General Partner.

If the allocation of all profits and losses cause the capital account balance of the General Partner to be less than zero, the General Partner must contribute to the capital of the Partnership an amount of cash or property equal to the lesser of the amount necessary to increase its capital account to zero or total aggregate carried interest distributions ("Clawback"). For the purposes of clawback, the portfolio company interests distributed as part of the May 27, 2021 General Partner distribution are deemed distributed to the Limited Partners at the same value as the General Partner and subsequent appreciation or depreciation are not subject to clawback. As of December 31, 2025, the General Partner has been allocated \$1,296,137,924 in carried interest and there is no clawback.

Operating income and loss is allocated among the partners in proportion to their respective capital subscriptions immediately prior to the date of such allocation period.

Sequoia Capital U.S. Growth Fund VI, L.P.

(a Cayman Islands exempted limited partnership)

Notes to Financial Statements

December 31, 2025

(In United States Dollars "\$")

8. Partnership Capital

The total committed capital of the Partnership is \$975,500,000, of which \$500,000 is required to be contributed by the General Partner under the terms of the Partnership Agreement. An aggregate of \$970,622,500, approximately 99.5%, had been contributed as of December 31, 2025. The remaining committed capital will be paid in installments upon written notice given to all partners by the General Partner.

	General Partner	Limited Partners	Total
Committed capital	\$ 500,000	\$ 975,000,000	\$ 975,500,000
Amount not yet called	(2,500)	(4,875,000)	(4,877,500)
Capital contributions	<u>\$ 497,500</u>	<u>\$ 970,125,000</u>	<u>\$ 970,622,500</u>

9. Distributions and Withdrawals of Partnership Assets

Advanced distributions and withdrawals may be made in accordance with the terms of the Partnership Agreement. Distributions attributable to securities, whether in cash or in-kind, are generally made 30% to the General Partner and 70% among all partners in proportion to their respective capital subscriptions. The General Partner must make an additional capital contribution equal to 30% of the aggregate cost basis of the asset distributed. In the case of an in-kind distribution, such contribution shall be in the form of full recourse promissory notes to the Partnership, payable by the General Partner and secured by such distributed assets. These notes do not bear any interest and are generally payable upon (i) the date on which the General Partner disposes of the associated asset, (ii) dissolution of the partnership, or (iii) at an earlier date determined by GP discretion. If the General Partner elects to receive less than the full amount of a distribution in respect of which a capital contribution is required, the amount of the capital contribution required shall be reduced ratably (so that the actual capital contribution shall be in the same proportion to the contribution otherwise required as the proportion of the actual distribution received by the General Partner to the full amount of the distribution to which the General Partner would otherwise have been entitled). All other distributions are made to all partners in proportion to their respective capital subscriptions as of the date of such distribution.

On May 14, 2021, the General Partner requested consent of the Limited Partners to make an in-kind distribution to the General Partner of the carried interest portion of certain portfolio company interests. A majority-in-interest of Limited Partners consented to the distribution, which was made on May 27, 2021.

10. Management Fee and Related Party Transactions

During the entire term of the Partnership, the Partnership shall pay in advance on the first day of each calendar quarter to the General Partner for its services in managing the business and affairs of the Partnership, an annual fee equal to 2.50% of the aggregate capital commitments of the partners. Commencing with the first complete fiscal quarter following the sixth anniversary of the first due date specified in the first capital call issued, the annual management fee rate shall be reduced by 0.25% per year, but shall not in any event be reduced to less than 1.50% of the aggregate capital commitments of the partners; provided however that, with respect to any period following the Partnerships' dissolution, the annual management fee rate shall be determined in good faith by the General Partner and a majority-in-interest of the Limited Partners.

Notes to Financial Statements

December 31, 2025

(In United States Dollars "\$")

The General Partner pays all expenses incidental to the management of the business and affairs of the Partnership except certain reimbursable expenses as listed in the Partnership Agreement.

11. Indemnification

The Partnership has provided general indemnifications to the officers, directors, members, employees and agents of the general partners, when they act, in good faith, in the best interests of the Partnership. Such indemnifications provided by the Partnership are subordinate to the liability coverage carried by the General Partner and should serve to mitigate any potential liability which may arise at the Partnership level. The Partnership is unable to develop an estimate of the maximum potential amount of future payments that could potentially result from any hypothetical future claim, but expects the risk of having to make significant payments under these general business indemnifications to be remote.

12. Income Taxes

The authoritative guidance on accounting for and disclosure of uncertainty in tax positions requires the General Partner to determine whether a tax position of the Partnership is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. For tax positions meeting the more likely than not threshold, the tax amount recognized in the financial statements is reduced by the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the relevant taxing authority.

The Partnership files tax returns as prescribed by the tax laws of the jurisdictions in which it operates. In the normal course of business, the Partnership is subject to examination by federal, state, local and foreign jurisdictions, where applicable. As of December 31, 2025, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations is from the year 2021 forward (with limited exceptions).

Jurisdiction	Earliest Tax Year Subject to Examination
U.S. federal	2022
California state	2021

The Partnership accrues all interest and penalties under relevant tax laws as incurred. As of December 31, 2025, the General Partner has determined that the Partnership does not have a liability for interest and penalties related to uncertain tax positions. For the year ended December 31, 2025, the General Partner has not incurred any interest expense or penalties related to uncertain tax positions.

13. Financial Highlights

The Partnership is required to disclose financial highlights for the common interest in the Partnership (i.e., the Limited Partners' interest). These financial highlights consist of the operating expenses and net operating income / (loss) ratios for the year ended December 31, 2025 and the Internal Rate of Return ("IRR") since inception of the Limited Partners, net of all fees allocated to

(In United States Dollars "\$")

the Limited Partners and profit allocations (capital and carried interest) to / (from) the General Partner, through December 31, 2025 and December 31, 2024. The following summarizes the Limited Partners' financial highlights:

Net operating income / (loss)	<u>(8.63)%</u>
Operating expenses	<u>9.09 %</u>
Incentive allocation	<u>6.46 %</u>
Operating expenses after incentives	<u>15.55 %</u>
Cumulative Internal Rate of Return through December 31, 2024	<u>19.89 %</u>
Cumulative Internal Rate of Return through December 31, 2025	<u>19.80 %</u>

The net operating income / (loss) and operating expenses ratios are computed as a percentage of average net assets.

The IRR was computed based on the due dates of cash inflows (capital contributions), actual dates of outflows (cash and the fair market value of stock distributions at the time of distribution) and the ending net assets at the end of the period (residual value) of the Limited Partners' capital account as of the measurement date.

These financial highlights may not be indicative of the future performance of the Partnership.

14. Subsequent Events

The General Partner has evaluated all transactions and events after the balance sheet date through March 19, 2026, the date these financial statements were available to be issued, and did not note any items that would adjust these financial statements or require disclosures.
